There may be other special areas of risk relating to the investment including liquidity risk, credit risk, market risk, and settlement risk. FundRock Management Company (RF) (Pty) Ltd, (“the manager”), and the investment manager do not render financial advice. Our risk indicator does not imply that the portfolio is suitable for all types of investors. You are advised to consult your financial adviser.

List of Portfolios

FR Retail Hedge Fund Scheme

- Florin da Vinci FR Retail Hedge Fund

The Portfolio Objective

The portfolio aims to deliver net of fees a positive compound performance in excess of 15% per annum while maintaining little correlation to either the South African equity or bond markets.

The Investment Strategy

The portfolio is a low beta multi-strategy fund predominately investing in South African Equities using a contrarian value-based approach.

Changes to the Investment Strategy and/or Investment Policy

In order to amend any provision(s) contained in the supplemental deed, the manager has to request and receive prior approval from the FSCA. Such request shall state the reasons for the proposed amendment and the impact or benefit this is likely to have for the investor.

Upon receiving such approval, the auditor of the scheme must oversee a balloting process which is undertaken to obtain consent from the investors.

Investors holding at least 75% (seventy-five percent) in value of the participatory interests in the portfolio and who constitute more than 50% (fifty percent) of the portfolio’s investors must vote in favour of the amendment for the amendment to be effected.

Voting shall be conducted by electronic ballot in accordance with the provisions of the deed, and the manager shall, after having dispatched the ballots to investors, allow for a period thirty days for investor to return the ballots.

Does Portfolio Invest in Underlying Funds?

Yes.

The Types of Assets in which the Portfolio may invest

The portfolio can hold positions in listed financial instruments and any other investment instruments, including but not limited to:

- listed equities
- unlisted equities,
- money market instruments,

- fixed income instruments,
- futures,
- options,
- swaps,
- preference shares,
- convertible securities,
- ETF's and other collective investment schemes.
- Listed and OTC derivatives with underlying:
 - equities
 - interest rate instruments
 - credit default,
 - commodities,
 - foreign exchange rates

The portfolio may invest offshore. The portfolio exposure will vary between the asset classes depending on opportunities available at the time.

The Investment Restrictions applicable to the Portfolio

Net equity exposure: Net exposure calculated using cash adjusted positions is maintained between 20% short and 80% long.

Leverage: The greater of total long exposure and total short exposure is limited to 2.5 times the portfolio capital.

Equities position size: Position size for equities (excluding preference shares) is limited to 25% of the greater of total long exposure, total short exposure and portfolio capital.

Fixed income position size: Position size for fixed income instruments (including preference shares) is limited to 35% of the greater of total long exposure, total short exposure and portfolio capital.

Liquidity (long): Single long equity or fixed income position > 15% of portfolio capital is limited to 10 days trading volume (trailing 12-month trade statistics).

Liquidity (short): Single short equity or fixed income position is limited to 5 days trading volume (trailing 12-month trade statistics).

Unlisted Equities – limited to 10% of the portfolio capital. Unlisted shares acquired in a public placement to institutions or book building as part of a listing process will be considered as listed and therefore excluded from the calculation of the 10% unlisted limit.

OTC and Options: The portfolio may not trade in OTC options.

Instances where the Portfolio may Use Leverage

The Types and Sources of Leverage

The portfolio may leverage itself by short selling or trading on margin or purchasing options. The portfolio may at certain times be required to issue guarantees, and accordingly may borrow money from a bank, prime broker or any other such institution. The portfolio may also arrange for the issue of guarantees for the bridging required to conclude a private placement or underwriting of securities.

The Risks Associated with the Leverage

The portfolio may use leverage techniques from time to time to purchase or carry investments.

The interest expense and other costs incurred in connection with such leverage or borrowing may not be recovered by an appreciation in the investments purchased or carried.

Gains realised with leveraged investments may cause the underlying fund's net asset value to increase at a faster rate than would be the case without leverage. If, however, investment results fail to cover the cost of leverage or borrowings, the portfolio's net asset value could also decrease faster than if there had been no leverage or borrowings. Because of the leveraged nature of certain of the investments, a relatively small movement in the market price of traded instruments may result in a disproportionately large profit or loss.

The Restrictions on the Use of Leverage

The degree to which leverage may be employed in the portfolio shall be limited by the terms of the mandate. The limits laid down in the mandate should be carefully reviewed in making an investment decision.

Collateral and Asset Re-Use Arrangements

The cash and long positions held in the portfolio are available for use as collateral for the short positions held.

The Maximum Leverage allowed for the Portfolio

Commitment Approach Limit	200%
----------------------------------	------

Material Arrangements of the Manager with the Prime Broker

The Manner of Managing Conflicts of Interest

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them.

In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

The Level of Counterparty Exposure

The portfolio will comply with the counterparty exposure limits as set out in BN52.

The Methodology of Calculating Counterparty Exposure

In terms of Section 8(2) of BN52 counterparty exposure shall be calculated to equal any initial margin held by a counterparty, the market value of any derivative, any net exposure generated through a scrip lending agreement and any other exposures created through reinvestment of collateral.

Provisions in the Contract with the Depositary and Custodian on the Possibility of Transfer and Re-hypothecation of Assets

The prime broking agreement may allow for the re-hypothecation of assets.

The portfolio's prime broker may provide a financing service to the portfolio, whereby any shortfall in the financing of the portfolio's assets is provided by the prime broker. Any such financing will be collateralised from the assets of the portfolio. However, unlike a normal borrowing situation, the prime broker takes physical delivery of the portfolio's assets and is permitted to deal with them for its own account. The portfolio's assets are therefore treated as being indistinguishable from the assets of the prime broker and are not segregated as client money or assets.

In the event of the insolvency of the prime broker, the assets of the portfolio that are held as collateral against

money owed to the prime broker, are completely exposed to the prime broker's creditors.

In such instances, any action by the prime broker's creditors may lead to the closing out of positions without the consent of the investment manager and at a loss.

Delegated Administration and Management of Conflict of Interest that May Arise

The Manager has appointed Apex Fund and Corporate Services SA (Pty) Ltd as the administrator. Both entities are subject to separate governance structures and independent oversight and internal controls; as well as the FSCA regulatory oversight. Both entities have satisfied the FSCA in terms of the conflict-of-interest policy they have in place.

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them.

In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

The Portfolio's Valuation and Pricing Methodologies

The portfolio will apply the portfolio valuation and asset pricing policy of the Manager. This policy will be consistently applied and meets the requirements of BN52.

The Liquidity Risk Management of the Portfolio and the Repurchase Rights

The fund's liquidity is managed by aggregating the liquidity terms of its underlying investments to ensure that the majority of the portfolio can be liquidated within 30 days with a full calendar months' notice, in line with the fund's dealing terms.

The underlying funds are further monitored for liquidity stress testing via daily and monthly reports.

Repurchase of Participatory Interests

Repurchase notification date will be 1 (one) calendar month prior to the repurchase pricing date. Repurchase payment date will be no later than 14 (fourteen) business days after the repurchase pricing date.

Gating, Side-Pocketing and Repurchase Restrictions

Sections 5(b) (ii) and 6(5) of BN52 provide that both retail hedge funds and qualified investor hedge funds may suspend the repurchases of units under exceptional circumstances and when it's in the interests of investors.

Special Repurchase Arrangements or Rights of Some Investors

None.

Investment Management Fees, Charges, and Expenses

Service Fee	1.70% (Incl. VAT)
Performance Fee	15% of excess above BM on HWM basis
High Watermark	The fee calculation employs a HWM ensuring no fee is accrued until previous underperformance has been recouped.
Hurdle	Standard Bank Wholesale Call Rate
Entry Charge	0%
Exit Charge	0%

The portfolio may offer multiple classes of units for different types of investors and unit holders. The various classes in the portfolio may each have different fee structures for the different types of investors.

All investments will be allocated to specific classes at the discretion of the investment manager. All classes of units in the portfolio will invest in the same investment portfolio of securities and share the same investment objective and policy.

Other Fees

The portfolio may directly deduct and pay other fees if such payments are permitted in terms of Section 93 of CISCA and are due and payable under lawful agreement.

The Charges Paid by the Portfolio

These charges make up the running costs of the portfolio.

Permissible deductions from a portfolio shall include:

- Initial fee & VAT.
- Investment management fee.
- Administration fee.
- Exit fee.
- Trading charges e.g. brokerage, securities transfer tax, VAT, and other levies.
- Auditor's fees.
- Bank charges.
- Trustee and custodian fees.

Fair Treatment of Customers

The Manager observes a policy of Treating Customers Fairly ("TCF") and this permeates throughout the business and informs all business dealings of the Manager. The Manager strives to design, distribute, and provide products that meet the objectives of the TCF code and all investors investing in our products – simple and complex – are encouraged to seek qualified financial advice in order to select and invest in a product that not only meets their requirements, but is to their level of understanding and sophistication.

Preferential Treatment

The directors and employees of the investment manager may hold an investment in the portfolio. These investments may be zero fee paying at the discretion of the investment manager.

The Latest Annual Report

The latest annual report of the portfolio shall be kept at the office of the Manager for viewing by the investor.

Selling and Issuing Participatory Interest in the Portfolio

Purchase of Participatory Interests

Purchases of participatory interests will be effective on the first day of each calendar month. Applications for new purchases as well as the purchase amount need to be received no later than 10:00 on the last business day of the previous calendar month.

Minimum investment amount

R 10,000.00 (Ten Thousand Rand)

The investor shall complete a subscription form and return to the Manager no later than 10:00 on the last business day of the previous calendar month for the investment to be processed and participatory interest (units) allocated in favour of the investor on the 1st day of the new calendar month.

The Manager may not sell any participatory interests (units) except on terms requiring the full payment of the selling price.

Mandatory Disclosures

Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. A schedule of fees, charges, minimum fees and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from FundRock Management Company (RF) (Pty) Ltd ("the Manager").

The Manager does not provide any guarantee in respect to the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commission and incentives may be paid, and if so, are included in the overall costs.

The Manager may close the portfolio to new investors in order to manage it in accordance with its mandate. Prices are published daily on our website. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the Manager.

The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where the portfolio invests in offshore assets, performance is further affected by uncertainties such as changes in government policy, taxation and other legal or regulatory developments. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy.

The Manager is registered and approved by the Financial Sector Conduct Authority ("FSCA") under the Collective Investment Schemes Control Act 45 of 2002. The Manager retains full legal responsibility for the portfolio. FirstRand Bank Limited is the appointed trustee. Florin Capital Management (Pty) Limited, FSP No. 42422, is authorised under the Financial Advisory and Intermediary Services Act 37 of 2002 to provide investment management services. The KIID document will be published quarterly on the Investment Manager's and Representative Office website.
