- * The Acumen AcuityOne FR Retail Hedge Fund

Portfolio Objective

The investment objective of the portfolio is to provide investors with a positive real return over the medium to long term. The strategy is to exploit pricing anomalies across the various markets.

Investment Strategy

The portfolio aggressively invests across South African Rand Interest rate products, equity indices and the major Rand foreign exchange cross rates. In fixed income, the majority of positioning is in relative value trades which have little to no directional exposure. Equity and Currency is purely directional. A variety of proprietary models are used to determine value which includes rigorous analysis of cashflows on a spot and forward basis overlaid with technical analysis.

Does Portfolio Invest in Underlying Funds?

Yes

The Types of Assets in which the Portfolio may invest

The portfolio can invest in: Equity Instruments

- * Listed Equities;
- * Preference Shares;
- * Listed Commodities;
- * Listed Property;

- * Index Tracking certificate

Unlisted

- * Forwards
- * Contract for Difference (CFDs)
- * Options

Other

- * Participatory Interests in collective investment schemes
- * Exchange Traded Funds (ETFs)
- * Foreign Exchange (Forex)

Changes to the Investment Strategy and or Investment Policy

In order to amend any provision(s) contained in the supplemental deed, the manager has to request and receive prior approval from the FSCA. Such request shall state the reasons for the proposed amendment and the impact or benefit this is likely to have for the investor. Upon receiving such approval, the auditor of the scheme must oversee a balloting process which is undertaken to obtain consent from the investors.

Investors holding at least 75% (seventy-five percent) in value of the participatory interests in the portfolio and who constitute more than 50% (fifty percent) of the portfolio's investors must vote in favour of the amendment for the amendment to be effected.

Voting shall be conducted by electronic ballot in accordance with the provisions of the deed, and the manager shall, after having dispatched the ballots to investors, allow for a period thirty days for investor to return the ballots.

Risk Guidelines

- * The guidelines set out below have been introduced in order to manage the investment risk of the portfolio. The following restrictions apply:
- * The portfolio will be subject to a PV01 limit of 1.00% of Net Asset Value.

ETL Limit

- * The portfolio will subject to ETL x 1.5 limit of 70% of net Asset Value using a 10-day holding period;
- * No new trades may be executed once the 70% limit is reached; unless such trades reduce the exposure of the portfolio;
- * If a breach of the 70% limit occurs due to exiting positions, this will be allowed (passive breach);
- * If the exposure increases to 80% of the Net Asset Value, the investment manager is obliged to reduce the exposure to the 70% limit or below;
- * The ETL limit is used calculating at least 500 days of history which includes a stress period in historical time series.

Liquidity Parameter

- * Using the daily traded volume for the most recent and appropriate stress period; over a ten-day holding period, 40% of the portfolio should be able to be liquidated;
- * Cash Balances on hand should be sufficient to cover the following:
- * Calculate ETL x 1.5;
- * Using historical simulation VaR methodology;
- * 500-day history which would include 250 days of the most recent and appropriate stress period.
- * Ten day holding period.
- * For fixed income instruments the amount calculated should be greater than or equal to the total cash held by the portfolio (including amount held in collateral accounts).
- * For Equity instruments the amount calculated should be multiplied by 1.25 and this amount should be greater than or equal to the total cash held by the portfolio (including amounts held in collateral accounts).

Instances where the Portfolio may Use Leverage

*The types and sources of leverage

The portfolio may leverage itself by short selling or trading on margin or purchasing options. The portfolio may at certain times be required to issue guarantees, and accordingly may borrow money from a bank, prime broker or any other such institution. The portfolio may also arrange for the issue of guarantees for the bridging required to conclude a private placement or underwriting of securities.

*The Risks Associated with the Leverage

The portfolio may use leverage techniques from time to time to purchase or carry investments. The interest expense and other costs incurred in connection with such leverage or borrowing may not be recovered by an appreciation in the investments purchased or carried.

Gains realised with leverage investments may cause the underlying fund's net asset value to increase at a faster rate than would be the case without leverage. If, however, investment results fail to cover the cost of leverage or borrowings, the portfolio's net asset value could also decrease faster than if there had been no leverage or borrowings. Because of the leveraged nature of certain of the investments, a relatively small movement in the market price of traded instruments may result in a disproportionately large profit or loss.

*Restrictions on the Use of Leverage

The degree to which leverage may be employed in the portfolio shall be limited by the terms of the mandate. The limits laid down in the mandate should be carefully reviewed in making an investment decision.

*Collateral and Asset Re-Use Arrangements

The cash and long positions held in the portfolio are available for use as collateral for the short positions held.

*The Maximum Leverage allowed for the Portfolio

The portfolio will utilize the VaR approach to measure leverage.

Limit	20%
Probability level	99%
Holding Period	10 days

Utilising 500 days of recent history

Material Arrangements of the Manager with the Prime Broker

*The Manner of Managing Conflicts of Interest

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them.

In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

*The Level of Counterparty Exposure

The portfolio will comply with the counterparty exposure limits as set out in BN52.

*The Methodology of Calculating Counterparty Exposure

In terms of Section 8(2) of BN52 counterparty exposure shall be calculated to equal any initial margin held by a counterparty, the market value of any derivative, any net exposure generated through a scrip lending agreement and any other exposures created through reinvestment of collatera.l

The Portfolio's Valuation and Pricing Methodologies

The portfolio will apply the portfolio valuation and asset pricing policy of the Manager. This policy will be consistently applied and meets the requirements of BN52.

The Liquidity Risk Management of the Portfolio and the Repurchase Rights

Liquidity management is facilitated through real time monitoring of the portfolio liquidity profile using both an independent third party risk monitoring system and internal proprietary system.

The investment manager shall ensure that the liquidity of the securities included in the portfolio shall not compromise the liquidity terms of the portfolio.

Regular liquidity stress-testing will be applied, providing for increased investor repurchases, and shortage of liquidity of the underlying assets in the portfolio.

Repurchase of Participatory Interests

Repurchase notification date will be 1 (one) calendar month prior to the repurchase pricing date. Repurchase payment date will be no later than fourteen business days after the repurchase pricing date.

Gating, Side-Pocketing and Repurchase Restrictions

Sections 5(b) (ii) and 6(5) of BN52 provide that both retail hedge funds and qualified investor hedge funds may suspend the repurchases of units under exceptional circumstances and when it's in the interests of investors.

Special Repurchase Arrangements or Rights of Some Investors

None

Investment Management Fees, Charges, and Expenses - Class 1

Service Fee	0.31% Including VAT
Performance Fee	Performance fee is uncapped, but the maximum fee rate will be 20%
High Watermark principle	The fee calculation employs a HWM ensuring no fee is accrued until previous underperformance has been recouped.
Entry Charge	0%
Exit Charge	0%

The portfolio may offer multiple classes of units for different types of investors and unit holders. The various classes in the portfolio may each have different fee structures for the different types of investors.

All investments will be allocated to specific classes at the discretion of the investment manager. All classes of units in the portfolio will invest in the same investment portfolio of securities and share the same investment objective and policy.

For more detailed information about charges and how these are calculated, a detailed fee methodology is available on request from the Manager.

Other Fees

The portfolio may directly deduct and pay other fees if such payments are permitted in terms of Section 93 of CISA and are due and payable under lawful agreement.

Fair Treatment of Customers

The Manager observes a policy of Treating Customers Fairly ("TCF") and this permeates throughout the business and informs all business dealings of the Manager. The Manager strives to design, distribute, and provide products that meet the objectives of the TCF code and all investors investing in our products - simple and complex - are encouraged to seek qualified financial advice in order to select and invest in a product that not only meets their requirements, but is to their level of understanding and sophistication.

The Charges Paid by the Portfolio

These charges make up the running costs of the portfolio. Permissible deductions from a portfolio shall include:

- * Initial fee & VAT;
- * Investment management fee;
- * Administration fee;
- * Exit fee;
- * Trading charges e.g. brokerage, securities transfer tax, VAT, and other levies
- * Auditor's fees;
- * Bank charges; and
- * Trustee and custodian fees.

The Latest Annual Report

The latest annual report of the portfolio shall be kept at the office of the Manager for viewing by the investor.

Selling and Issuing Participatory Interest in the Portfolio

Purchase of Participatory Interests

Purchases of participatory interests will be effective on the first day of each calendar month. Applications for new purchases as well as the purchase amount need to be received no later than 10:00 on the last business day of the previous calendar month.

Minimum Investment Amount

R 1,000,000.00 (One Million Rand)

The investor shall complete a subscription form and return to the Manager no later than 10:00 on the last business day of the previous calendar month for the investment to be processed and participatory interest (units) allocated in favour of the investor on the 1st day of the new calendar month.

The Manager may not sell any participatory interests (units) except on terms requiring the full payment of the selling price.

Preferential Treatment

The directors and employees of the investment manager may hold an investment in the portfolio. These investment may be allocated into a non-fee paying class with a 0% base fee and a 0% performance fee. These investments may be zero fee paying at the discretion of the investment manager.

Delegated Administration and Management of Conflict of Interest that May Arise

The Manager has appointed Apex Fund and Corporate Services SA as the administrator. Both entities are subject to separate governance structures and independent oversight and internal controls; as well as the FSCA regulatory oversight. Both entities have satisfied the FSCA in terms of the conflict of interest policy they have in place. The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them. In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

Provisions in the Contract with the Depository and Custodian on the Possibility of Transfer and Re-hypothecation of Assets

The prime broking agreement does not provide for the transfer or re-hypothecation of assets. The portfolio’s prime broker may provide a financing service to the portfolio, whereby any shortfall in the financing of the portfolio’s assets is provided by the prime broker. Any such financing will be collateralised from the assets of the portfolio. However, unlike a normal borrowing situation, the prime broker takes physical delivery of the portfolio’s assets and is permitted to deal with them for its own account. The portfolio’s assets are therefore treated as being indistinguishable from the assets of the prime broker and are not segregated as client money or assets. In the event of the insolvency of the prime broker, the assets of the portfolio that are held as collateral against money owed to the prime broker, are completely exposed to the prime broker’s creditors. In such instances, any action by the prime broker’s creditors may lead to the closing out of positions without the consent of the Investment Manager and at a loss.

Mandatory Disclosures

Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. A schedule of fees, charges, minimum fees and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from FundRock Management Company (RF) (Pty) Ltd (“the Manager”).

The Manager does not provide any guarantee in respect to the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commission and incentives may be paid, and if so, are included in the overall costs.

The Manager may close the portfolio to new investors in order to manage it in accordance with its mandate. Prices are published monthly on our website. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the Manager.

The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where the portfolio invests in off-shore assets, performance is further affected by uncertainties such as changes in government policy, taxation and other legal or regulatory developments. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy.

The Manager is registered and approved by the Financial Sector Conduct Authority (“FSCA”) under CISCA. The Manager retains full legal responsibility for the portfolio. FirstRand Bank Limited is the appointed trustee. Acumen Capital (Pty) Limited, FSP No. 14927, is authorised under the Financial Advisory and Intermediary Services Act 37 of 2002 to provide investment management services.
