Independent Auditor's Report

To the Unit holders of Lighthouse Global Equity Fund

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements which comprise:

- the statement of financial position as at 31 March 2026;
- the statements of comprehensive income, changes in funds attributable to unit holders and cash flows for the year then ended; and
- notes, including material accounting policy information and other explanatory information.

In our opinion, the accompanying financial statements of Lighthouse Global Equity Fund (the **Fund**) on pages 6 to 19 present fairly in all material respects:

- the Fund's financial position as at 31 March 2026 and its financial performance and cash flows for the year ended on that date;
- In accordance with New Zealand Equivalents to International Financial Reporting Standards (**NZ IFRS**) issued by the New Zealand Accounting Standards Board and the International Financial Reporting Standards issued by the International Accounting Standards Board.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (**ISAs (NZ)**). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of Lighthouse Global Equity Fund in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (**IESBA Code**), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with Professional and Ethical Standards 1 and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

Other than in our capacity as auditor we have no relationship with, or interests in, the Fund.

Materiality

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at 1% of total assets of the Fund. We chose the benchmark because, in our view, this is a key measure of the Fund's performance.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the Unit holders as a body may better understand the process by which we arrived at our audit opinion.

Our procedures were undertaken in the context of and solely for the purpose of our audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements.

The key audit matter How the matter was addressed in our audit

Valuation and existence of investments

Refer to Note 2 Summary of significant accounting policies and Note 6 Financial assets and liabilities at fair value through profit and loss (for existence and valuation) of the financial statements.

The Fund's portfolio of investments is the most significant asset. These investments include listed equities.

The investment portfolio in total, due to its materiality in the context of the financial statements as a whole, is our most significant area of audit focus.

Our audit procedures included:

- Documenting and understanding the processes in place to record investment transactions and to value the portfolio. This included evaluating the control environment in place at the custodian and administrator by obtaining and reading the reports issued by independent auditors on the design and operation of those controls;
- Agreeing the valuation of listed equities to externally quoted prices;
- Recalculated the net gains/losses on financial assets/(liabilities) measured at FVTPL based on the investment portfolio reports;
- Agreeing investment holdings to confirmations received from the custodian; and
- Checking the accuracy of fair value hierarchy disclosure as disclosed in the financial statements.

Other information

The Manager, on behalf of the Fund, are responsible for the other information. The other information comprises information included in the Directory, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears materially misstated.

If, based on the work we have performed, we conclude there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Use of this independent auditor's report

This independent auditor's report is made solely to the Unit holders. Our audit work has been undertaken so that we might state to the Unit holders those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, none of KPMG, any entities directly or indirectly controlled by KPMG, or any of their respective members or employees, accept or assume any responsibility and deny all liability to anyone other than the Unit holders for our audit work, this independent auditor's report, or any of the opinions we have formed.

Responsibilities of Manager for the financial statements

The Manager, on behalf of the Fund, are responsible for:

- the preparation and fair presentation of the financial statements in accordance with NZ IFRS issued by the New Zealand Accounting Standards Board and the International Financial Reporting Standards issued by the International Accounting Standards Board;
- implementing the necessary internal control to enable the preparation of a set of financial statements that is free from material misstatement, whether due to fraud or error; and
- assessing the ability of the Fund to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but it is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A further description of our responsibilities for the audit of the financial statements is located at the External Reporting Board (XRB) website at:

<https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-2/>

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Gavin Silva.

For and on behalf of:

Notes to the financial statements

1. GENERAL INFORMATION

Reporting entity	The Lighthouse Global Equity Fund (the "Fund") is a unit trust registered in New Zealand that commenced on 17 March 2021. The Fund is governed by a Master Trust Deed dated 1 December 2016 between FundRock NZ Limited (the "Manager") and Public Trust (the "Supervisor") and a Scheme Establishment Deed dated 9 February 2021 (together, the "Trust Deed"). The Fund is a for-profit entity. The Investment Manager is Lighthouse Funds Limited (the "Investment Manager"). Up to 9 July 2025 the Investment Manager was Lighthouse Funds LP. The Investment Manager defines and reviews the Fund's investment mandate, and is responsible for decisions about what the Fund invests in. The purpose of the Fund is to deliver long-run pre-tax returns (but after fees and expenses) that are at least 2% p.a. above the return of the MSCI All Country World Net Index. The Fund's secondary objective is to minimise the number of "losing years" – that is financial years where investors receive a negative return, or loss, rather than a positive return. The Fund invests in a portfolio of very large capitalisation stocks and ETFs listed on the NYSE and Nasdaq stock markets. The Fund may use leverage of up to 30% of NAV. The Fund's foreign currency exposures are not hedged back to New Zealand dollars. The financial statements are for year ended 31 March 2026, with comparatives for the year ended 31 March 2025.
Statutory Base	The financial statements for the Fund have been prepared in accordance with the Trust Deed and the Financial Markets Conduct Act 2013 ("FMCA").
Basis of preparation	The financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand and other legislative requirements as appropriate for for-profit entities. The financial statements comply with New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS"), and other New Zealand accounting standards and authoritative notices applicable to entities that apply NZ IFRS. The financial statements also comply with International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost basis, as modified by the revaluation of financial instruments at fair value through profit or loss. The methods used to measure fair value are discussed further below. The accrual basis of accounting has been applied, as has the going concern assumption. The assets and liabilities in the financial statements have been presented in order of their liquidity. All assets and liabilities either have a maturity of less than a year or have no fixed maturity and are therefore considered current assets/liabilities.
Standards and amendments to existing standards effective in the current year	There are no new or amended standards for the year ended 31 March 2026 that have had a material impact on the financial statements.
New accounting standards and interpretations not adopted	In May 2024, the XRB introduced NZ IFRS 18 Presentation and Disclosure in Financial Statements (NZ IFRS 18) (effective for annual reporting periods beginning on or after 1 January 2027). This standard replaces NZ IAS 1 Presentation of Financial Statements (NZ IAS 1) and primarily introduces a defined structure for the statement of comprehensive income, disclosure of management-defined performance measures (a subset of non-GAAP measures) in a single note together with reconciliation requirements. The Fund has not early adopted this standard and is yet to assess its impacts. No other new standards or amendments to existing standards and interpretations that are not yet in effect are expected to have a material impact on the financial statements of the Fund.

Notes to the financial statements - continued

Lighthouse Global Equity Fund
For the year ended 31 March 2026

1. GENERAL INFORMATION - CONTINUED

Significant accounting estimates and judgements	The preparation of financial statements in conformity with NZ IFRS requires the use of certain critical accounting estimates. It also requires the Manager to exercise its judgment in the process of applying the Fund's accounting policies. The investments of the Fund have been valued at the relevant redemption price established by underlying investment managers, therefore the Manager has not made any material accounting estimates or judgements in relation to the carrying value of these assets.
Climate related risks and opportunities	The Manager is currently a climate reporting entity ("CRE") in respect of the Fund which it manages in accordance with FMCA 2013. On 28 October 2025 the Financial Markets Authority ("FMA") announced 'No action' relief" for entities that are CRE and the existing climate reporting obligations to cease once legislation is passed. Based on the proposed amendments to the FMCA 2013, the Manager will not be a CRE once the FMCA 2013 is amended. As such, the Manager is not preparing climate statements for the Fund for the year ending 31 March 2026.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Functional and presentation currency	The financial statements are presented in New Zealand dollars, which is the Fund's functional currency. All amounts have been rounded to the nearest dollar.
Financial instruments	(a) Classification <i>Financial assets at fair value through profit or loss</i> The Fund classifies its investments in listed equities and call options as financial assets at fair value through profit or loss. The Fund classifies its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's investment strategies, policies and guidelines are established by the Manager. The portfolio of financial assets is managed, and performance is evaluated on a fair value basis in accordance with the Fund's investment strategies. The Manager and Investment Manager are primarily focused on fair value information and use that information to assess the assets' performance and to make decisions. The Fund has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. <i>Financial assets and liabilities at amortised cost</i> The Fund's cash and cash equivalents and other receivables are classified as financial assets at amortised cost based on the Fund's business models for managing those financial assets and the contractual cash flow characteristics. Financial liabilities at amortised cost comprise related party payables and other payables. (b) Recognition Purchases and sales of investments are recognised on the trade date, the date on which the Fund commits to purchase or sell the investment. Financial assets at fair value through profit or loss are initially recognised at fair value and, subsequent to initial recognition, measured at fair value. Gains and losses arising from changes in fair value are recognised in the Statements of Comprehensive Income when they arise. Interest, dividend and distribution income are separately recognised in the Statements of Comprehensive Income. Transaction costs are expensed as incurred in the Statements of Comprehensive Income. (c) Fair Value Measurement 'Fair Value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Funds had access at that date. The fair value also includes non-performance risk. <i>Fair value in an active market</i> The fair value of investments traded in active markets is based on their quoted market prices at the balance date without any deduction for estimated future selling costs. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume. The quoted market price used for listed equities is the current last sale price except where this price falls outside the bid-ask spread, in which case the bid price is used.

Notes to the financial statements - continued

Lighthouse Global Equity Fund
For the year ended 31 March 2026

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED**(d) Derecognition**

Financial assets are derecognised upon maturity or disposal of the asset. Any gain or loss arising on derecognition of the asset is recognised in the Statements of Comprehensive Income in the year the item is derecognised. Gains or losses are calculated as the difference between the disposal proceeds and the carrying amount of the item.

Fair value hierarchy	Fair value measurements are categorised into a three-level hierarchy that reflects the significance of the inputs used in making the measurements. Transfers between levels of the fair value hierarchy (if any) are deemed to have occurred at the beginning of the period. <i>Level one - fair value in an active market</i> The fair value of financial assets traded in active markets for the same instruments based on their quoted market prices at balance date without any deduction for estimated future selling costs. Generally, a level one category asset will have the most independent, reliable basis for measurement. <i>Level two - fair value in an inactive or unquoted market using valuation techniques and observable market data</i> The fair value of financial assets that are not traded in an active market is determined using valuation techniques for which all significant inputs are based on observable market data. <i>Level three - fair value in an inactive or unquoted market using valuation techniques without observable market data</i> The fair value of financial assets that are not traded in an active market is determined using valuation techniques for which any significant input is not based on observable market data.
Taxation	The Fund is a Portfolio Investment Entity ("PIE"). Under the PIE regime income is effectively taxed in the hands of the unit holders and therefore the Fund has no tax expense. Accordingly, no income tax expense is recognised in the Statements of Comprehensive Income. Under the PIE regime, the Manager attributes the taxable income of the Fund to unit holders in accordance with the proportion of their interest in the overall Fund. The income attributed to each unit holder is taxed at the unit holder's prescribed investor rate ("PIR") which is currently capped at 28%. Any PIE tax payable/refundable on full withdrawals is paid/received by the Manager on behalf of unit holders and deducted from or added to the withdrawal proceeds paid. Units are cancelled/issued to the value of the tax paid/refunded upon determination of the unit holders' annual PIE tax liabilities/assets at 31 March each year. At 31 March each year, the unit holders' net tax position is accrued, and the value of unit holders' funds is adjusted to reflect the impact of tax payable/receivable on the value of the unit holders' interest in the Fund. Unit holders' PIE tax amounts disclosed in the Statements of Changes in Funds Attributable to Unit Holders include withdrawals to meet unit holder tax liabilities and application representing unit holder tax refunds under the PIE regime. The PIE tax attributable to unit holders at balance date is calculated on the basis of the tax laws enacted or substantively enacted at balance date.
Foreign currencies	Transactions denominated in foreign currencies are recognised at the exchange rates at the date of the transactions. Monetary assets and liabilities at balance date denominated in foreign currencies are translated at the foreign currency exchange rates at that date. Realised and unrealised exchange gains and losses on financial assets at amortised cost during the financial year are recognised in the Statements of Comprehensive Income within 'Other foreign currency (losses)/gains, net'.

Notes to the financial statements - continued

Lighthouse Global Equity Fund
For the year ended 31 March 2026

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Expenses	All expenses, including the Fund's management fees are recognised in the Statement of Comprehensive Income on an accruals basis.
Income recognition	Interest income is recognised in the Statements of Comprehensive Income as the interest accrues using the effective interest rate method. Interest income is earned on short-term deposits, bank balances and margin accounts. Dividend and distribution income is recognised in the Statement of Comprehensive Income when the Fund's right to receive payment is established. Dividend and interest income is disclosed net of any foreign tax credits and resident withholding taxes deducted at source, as these tax credits are allocated to unit holders under the PIE regime. Any unrealised gains or losses arising from the revaluation of investments and any realised gains or losses from the sale of investments during the year are included in the Statements of Comprehensive Income. Foreign exchange gains and losses on cash and cash equivalents, other receivables, and other payables are recognised in the Statements of Comprehensive Income within 'Other foreign currency (losses)/gains, net'.
Cash and cash equivalents	Cash and cash equivalents comprise cash balances and short-term deposits with an original maturity of 90 days or less and are initially measured at fair value. Subsequent to initial recognition, all cash and cash equivalents are measured at amortised cost.
Other payables	Other payables include liabilities and accrued expenses owed by the Fund that are unpaid at balance date. Under NZ IFRS 9 - Financial Instruments ("NZ IFRS 9"), payables are initially recognised at fair value and subsequently stated at amortised cost using the effective interest method.
Related party payables	Payables to related parties include accrued expenses owed to related parties which are unpaid at balance date. Under NZ IFRS 9, related party payables are initially recognised at fair value and subsequently stated at amortised cost using the effective interest method.
Goods and Services tax	The Fund is not registered for GST and consequently all components of the financial statements are stated inclusive of GST where appropriate.
Statements of cash flows	Definitions of the terms used in the Statements of Cash Flows are: (a) Operating activities comprise all transactions and other events that are not financing activities and includes purchases and sales of investments. (b) Financing activities are those activities that result in changes in the size and composition of unit holders' funds. This includes elements of unit holders' funds not falling within the definition of cash. Distributions paid in relation to unit holders' funds are included in financing activities.
Applications and redemptions	Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Redemptions from the Fund are recorded gross of any exit fees payable after the cancellation of the units redeemed. Units are issued and redeemed at the holder's option at the unit price for that day. The unit price for the Fund is determined as the NAV divided by the number of units on issue.
Distributions	The income of the Fund is distributed proportionately to unit holders according to number of units held, subject to and in accordance with the Trust Deed.

Notes to the financial statements - continued

Lighthouse Global Equity Fund
For the year ended 31 March 2026

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Unit holders' funds	The units issued by the Fund are puttable instruments and meet the definition of an equity instrument, defined as: (a) unit holders are entitled to a pro rata share of the Fund's net assets in the event of the Fund's liquidation; (b) it is in the class of instruments that is subordinate to all other classes of instruments; (c) all units have identical rights and are puttable; (d) apart from the contractual obligation of the issuer to redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; (e) the total expected cash flows attributable to the instrument over its life is based substantially on the profit or loss, the change in the recognised net assets or the change in fair value of the recognised and unrecognised net assets of the Fund over the life of the instrument. The Fund issues redeemable units which are redeemable at the holder's option and are classified as equity and reported as unit holders' funds.
---------------------	---

Related parties	The related parties of the Fund include the Manager and the Investment Manager as they have the authority and responsibility for planning, directing, and controlling the activities of the Fund. The Supervisor is also a related party due to it being trustee of the Fund. The Fund may hold investments in other funds managed by the Manager and Investment Manager. Funds with a common manager are not viewed as related party relationships as per NZ IAS 24 - Related Party Disclosures ("NZ IAS 24"), however these transactions and balances are disclosed for the purposes of these financial statements. Additionally, whilst transactions with the Board and members of senior leadership team of the Manager and Investment Manager are not viewed as related party relationships as per NZ IAS 24, these transactions and balances are disclosed in these financial statements.

9. RELATED PARTIES

Related parties comprise the Manager, the Investment Manager, the Supervisor and their related entities.

Management fees As outlined in the Product Disclosure Statement ("PDS"), the Fund incurs Annual Fund Charges which are capped at 1.05% (31 March 2025: 1.05%) of the net asset value. The Fixed Annual Fund Charges include any fees within underlying funds or securities that the Fund may invest into, as well as fees paid to the Investment Manager, the Supervisor, the Auditor, the Custodian and the Administration Manager, bank charges and other various costs and expenses incurred. Where there is a shortfall, the Manager will pay the shortfall on behalf of the Fund and will recover the shortfall from the Investment Manager.

The Investment Manager pays the Manager a fee for fund hosting services from the management fees the Investment Manager receives.

Performance fees The Investment Manager may also be entitled to be paid a performance fee in respect of the 12-month period ending 31 March. The performance fee is in respect of any period that the investment performance is above the benchmark and the high-water mark. The fee is calculated as 30% of the Fund's performance, after fixed fund charges, above the return of the MSCI All Country World Net Index, measured in New Zealand dollars, plus 2.00% per annum.

The payment of the performance fee can be made only if the net asset value per unit exceeds the net asset value per unit used in the calculation of the last performance fee paid (the high water mark).

Further information on the performance fees can be found in the PDS and the Other Material Information ("OMI") document.

Supervisor fees The Supervisor is entitled to a fee, payable out of the Fund, in relation to the services it provides as the supervisor of the Fund. The fee is calculated and accrued daily and paid monthly as a percentage per annum of the NAV of the Fund.

Total Management fees, Performance fees and Supervisor fees paid by the Fund for the period are disclosed in the Statement of Comprehensive Income.

Related party payables	Lighthouse Global Equity Fund	
	2026 \$	2025 \$
Management fees payable	28,663	10,607
Supervisor fees payable	2,300	1,916
Total related party payables	30,963	12,523

All related party payable balances are current liabilities. Related party payables are classified as financial liabilities at amortised cost under NZ IFRS 9.

Related party holdings in the Funds Holdings by directors and key management personnel of the Manager, Investment Manager and their immediate family members are as follows:

	Lighthouse Global Equity Fund	
	2026 Units	2025 Units
Opening balance	156,357	153,290
Applications	1,393	5,289

10. RECONCILIATION OF NET (LOSS)/GAIN ATTRIBUTABLE TO UNIT HOLDERS TO NET CASH OUTFLOW FROM OPERATING ACTIVITIES

	Lighthouse Global Equity Fund	
	2026 \$	2025 \$
Net (loss)/gain attributable to unit holders	(440,670)	783,174
Adjustments for:		
Purchase of investments	(52,638,756)	(40,657,595)
Sale of investments	51,020,571	33,006,421
Net losses/(gains) on financial assets at fair value through profit or loss	110,532	(874,225)
Other foreign currency gains, net	(27,406)	(135,389)
Changes in payables and receivables:		
Dividends receivable	96	2,686
Interest receivable	(137)	(66)
Accounts payable	33,941	(342,879)
Net cash outflow from operating activities	(1,941,829)	(8,217,873)

11. FINANCIAL RISKS

Financial risk factors	The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk. The Fund's investment objectives, strategies and guidelines are outlined in the Scheme Establishment Deed, PDS and Statement of Investment Policy and Objectives ("SIPO"). The Manager sets the investment policy and investment guidelines for the Fund and obtains the Supervisor's approval for any material change to these guidelines. The overall risk management programme seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance. All securities investments present a risk of loss of capital. The maximum loss of capital on listed equities and call options is limited to the fair value of the investments held.
------------------------	--

11(A). MARKET RISK

Price risk	Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Fund invests in listed equities and options and is susceptible to market price risk arising from uncertainties about future values of those underlying funds.
Price risk - sensitivity analysis	At 31 March, the net fair value of financial instruments is exposed to price risk. The Manager considers the volatility of the fair value of investments in the portfolio to be in the 10% range which is the Manager's assessment of a reasonable movement with regard to historical volatility. If the price of the Fund's investments increased or decreased by 10%, the Fund's net assets attributable to unit holders and net profit/(loss) would increase or decrease as follows:

	Lighthouse Global Equity Fund	
	2026 \$	2024 \$
Financial assets at fair value through profit or loss		
Listed equities	13,817,966	13,804,694
Total	13,817,966	13,804,694
Sensitivity analysis		
10% increase in prices	1,381,797	1,380,469
10% decrease in prices	(1,381,797)	(1,380,469)

Lighthouse Global Equity Fund
For the year ended 31 March 2026

11(A). MARKET RISK - CONTINUED

Currency risk	Currency risk is the risk that the value of the financial instruments will fluctuate due to changes in foreign exchange rates. The Fund holds financial instruments denominated in currencies other than New Zealand dollar, the functional currency. It is therefore exposed to currency risk, as the value of the financial instruments denominated in other currencies will fluctuate due to change in exchange rates. The Fund may enter into foreign exchange derivatives to hedge the foreign currency risk implicit in the value of the portfolio securities denominated in foreign currency.
Currency risk - sensitivity analysis	At 31 March, had the exchange rates between the New Zealand dollar and the foreign currencies increased or decreased by 5% (which is the Manager's assessment of a reasonable movement with regard to historical volatility) with all other variables held constant, the Fund's net assets attributable to Unit Holders and net profit/(loss) would increase or decrease as follows:

		Lighthouse Global Equity Fund	
		2026 \$	2025 \$
Net monetary assets			
Cash and cash equivalents	USD	(4,149,989)	(3,246,042)
Other receivables	USD	7,905,989	6,411,768
Net non-monetary assets			
Listed equities	USD	13,817,966	13,804,694
Total		17,573,966	16,970,420
Sensitivity analysis			
USD exchange rates increase by 5%		(836,855)	(808,112)
USD exchange rates decrease by 5%		924,946	893,177

Interest rate risk	Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund holds cash in accordance within agreed limits specified in the Investment Mandate. The Fund is exposed to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flow.
Interest rate risk - sensitivity analysis	The following table details the interest rate re-pricing profiles of the financial assets held by the Fund. The table also details, based on exposures at 31 March, the effect of an interest rate increase or decrease by 1.50% (2025: 1.50%) which is the Manager's assessment of a reasonable movement with regard to the New Zealand Official Cash Rate which has moved 1.50% over the last twelve months (2025: 1.75%) with all other variables held constant, on the cash flows of cash and cash equivalents, and the related change in net assets attributable to unit holders and net profit/(loss):

		Lighthouse Global Equity Fund	
		2026 \$	2025 \$
Re-pricing profiles			
Cash and cash equivalents and bank overdraft			
Up to 90 days		(3,836,854)	(2,534,217)
Total		(3,836,854)	(2,534,217)
Sensitivity analysis			
Impact on cash flow to changes in interest rates			
Interest rates increase by 1.50%		(57,553)	(38,013)
Interest rates decrease by 1.50%		57,553	38,013

Lighthouse Global Equity Fund
For the year ended 31 March 2026

11(B). LIQUIDITY RISK

Liquidity risk is the risk that the Fund will not be able to meet its financial obligations as they fall due.

The Fund is exposed to daily redemptions of redeemable units and obligations arising from its margin lending facility. To manage these risks, the Fund invests primarily in listed equities that can be readily realised and maintains liquidity sufficient to satisfy margin requirements, operating expenses and expected redemption requests.

The Fund's financial liabilities consist of related party payables and other payables which are short term in nature and classified as current liabilities at balance date.

11(C). CREDIT RISK

Credit risk represents the risk that counterparty to the financial instrument will fail to perform contractual obligations under a contract and cause the Fund to incur a financial loss. Financial instruments that subject the Fund to credit risk are cash and cash equivalents and other receivables.

With respect to credit risk arising from the financial assets of the Fund, the Fund's exposure to credit risk arises from the default of the counterparty, with the current exposure equal to the fair value of these instruments as disclosed in the Statements of Financial Position. This does not represent the maximum risk exposure that could arise in the future as a result of changes in values, but best represents the current maximum exposure at the reporting date.

There is no material risk of default relating to applications receivable by the Fund (if any) as this receivable has arisen only due to timing between the date of receipt of the funds and when the units are allocated, and the receipts processed.

The Fund does not use credit derivatives to mitigate credit risk.

The Fund's cash and cash equivalents are held with Bank of New Zealand (S&P Global credit rating: AA-) (31 March 2025: AA-).

At 31 March 2026, all cash and cash equivalents are held with counterparties with high credit ratings and all financial instruments measured at amortised cost are short-term in nature (i.e. no longer than 12 months) and of high credit quality. The Manager considers the probability of default to be close to zero as the counterparties have strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Fund (31 March 2025: same).

As at 31 March 2026, there were no financial assets past due or impaired (31 March 2025: none).

11(D). CAPITAL RISK MANAGEMENT

The Fund's capital is represented by net assets attributable to unit holders. The Manager's objectives when managing capital are to provide returns for unit holders through capital growth. The Fund does this by investing in diversified and liquid market instruments.

The Fund strives to invest the subscriptions of unit holder funds in investments that meet the Fund's objectives while maintaining sufficient liquidity to meet unit holder redemptions.

The Fund does not have any externally imposed capital requirements. Units may be redeemed on a daily basis, or such other date as the Manager shall from time to time determine.

12. CONTINGENT LIABILITIES & COMMITMENTS

The Fund has no material commitments or material contingencies at 31 March 2026 (31 March 2025: nil).

13. AUDIT FEE

KPMG are entitled to a fee for the services it provides as auditor of these financial statements. Total fees paid to the auditor for the period ending 31 March 2026 were \$32,482 (31 March 2025: \$31,053).

14. EVENTS SUBSEQUENT TO BALANCE DATE

There are no significant subsequent events that require adjustment to or disclosure in these financial statements.
