

Fund Update

For the quarter ended 31 March 2026

- Dimensional Investment Funds
- Dimensional Australian Sustainability PIE Fund

This fund update was first made publicly available on: 14 August 2026

This is a replacement fund update. It replaces the previous fund update for the quarter ending 31 March 2026, first made publicly available on 01 May 2026. This replacement has rectified the date to which fund charges were calculated in the What fees are investors charged? section.

What is the purpose of this update?

This document tells you how the Dimensional Australian Sustainability PIE Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: To provide long-term capital growth by gaining exposure to a diversified portfolio of securities listed in Australia with increased emphasis on higher expected return securities.

The Fund also takes into account certain non-financial Sustainability Considerations when making investment decisions. The Fund has a Portfolio Carbon Footprint Reduction Goal and seeks to exclude companies involved in particular business practices.

Strategy: The fund is expected to be fully invested. A portion of the portfolio may be allocated to cash and cash equivalents for liquidity purposes. The fund is not managed with the objective of achieving a particular return relative to a benchmark index. However, to compare the performance of the fund with a broad measure of market performance, reference may be made to the S&P/ASX 300 Index (Total Return).

Total value of the fund	\$117,685,028
The date the fund started	3 October 2023

What are the risks of investing?^{See note 1}

Risk indicator for the Dimensional Australian Sustainability PIE Fund.

⇐ Potentially lower returns				Potentially higher returns ⇒		
1	2	3	4	5	6	7
⇐ Lower risk				Higher risk ⇒		

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 Mar 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	19.60%
Annual return (after deductions for charges but before tax)	20.69%
Market index annual return (reflects no deduction for charges and tax)	21.70%

The market index return is S&P/ASX 300 Index (Total Return) in New Zealand dollars. This has been the market index since the inception of the fund.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

Annual Return Graph See note 2

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Dimensional Australian Sustainability PIE Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value (inc. GST)
Total fund charges	0.35%
Which are made up of:	
Total manager and admin charges (inc. GST)	0.35%
Including:	
Manager's basic fee (inc. GST)	0.19%
Other management and administration charges	0.16%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Dimensional Australian Sustainability PIE Fund on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of \$2,069 (that is 20.69% of his initial \$10,000). This gives Anthony a return after tax of \$1,960 for the year.

Notes

1. A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. Market index returns have been used until 31 October 2023 and fund returns thereafter. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.
2. The bar chart shows fund returns after deducting fees and tax. Tax is deducted at the highest Prescribed Investor Rate of 28%. However, the market index returns are shown before deducting fees and tax.
