This fund update was first made publicly available on: 13 February 2026

What is the purpose of this update?

This document tells you how the Russell Investments Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: To provide a total return, before costs and tax, higher than the return of the MSCI ACWI – Net Index - over the long term.

Strategy: The underlying investment exposure is predominantly to a broad range of international shares listed on stock exchanges in developed markets and emerging international markets. The Fund employs certain investment exclusions, please refer to the SIPO for further details. Derivatives may be used to obtain or reduce exposure to securities and markets, to implement investment strategies and to manage risk.

Total value of the fund	$362,397,719
The date the fund started	14 November 2012

What are the risks of investing?

Risk indicator for the Russell Investments Global Shares Fund.

⇦ Potentially lower returns | Potentially higher returns ⇨

1	2	3	4	5	6	7

⇦ Lower risk | Higher risk ⇨

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at https://sorted.org.nz/.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 Dec 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

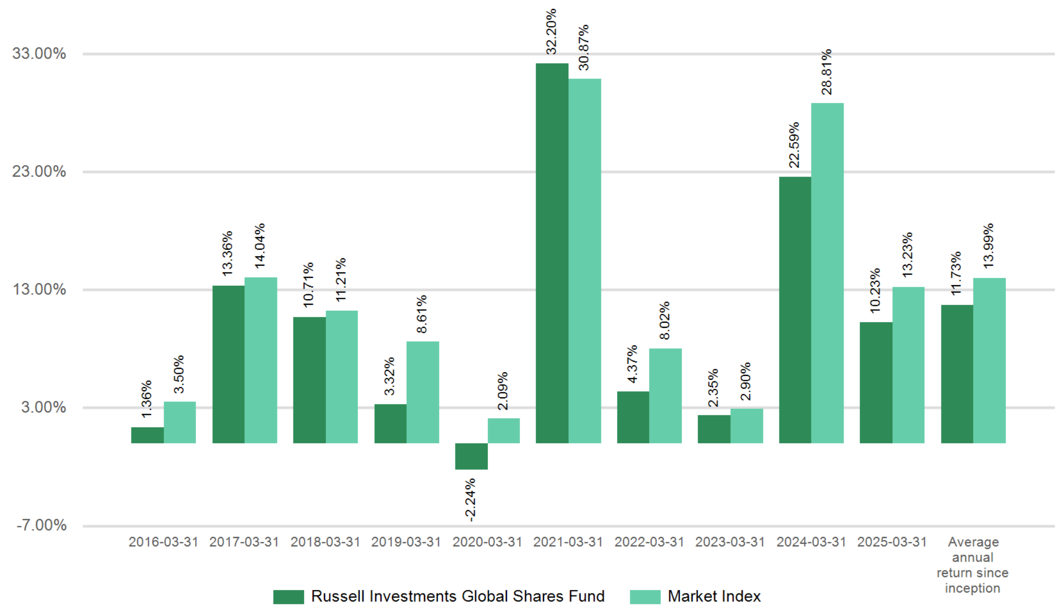
Annual Return Graph See note 1



This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2025.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Russell Investments Global Shares Fund are charged fund charges. In the year to 31 March 2025 these were:

	% of net asset value (inc. GST)
Total fund charges	0.93%
Which are made up of:	
Total manager and admin charges (inc. GST)	0.93%
Including:	
Manager’s basic fee (inc. GST)	0.83%
Other management and administration charges	0.10%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Russell Investments Global Shares Fund on the offer register at https://disclose-register.companiesoffice.govt.nz for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of $2,007 (that is 20.07% of his initial $10,000). This gives Anthony a return after tax of $1,912 for the year.
