

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 Mar 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

## How has the fund performed?

|  | Average over<br>past 5 years | Past year |
|--|------------------------------|-----------|
| Annual return (after deductions for charges and tax)                   | 12.55%                       | 31.76%    |
| Annual return (after deductions for charges but before tax)            | 13.78%                       | 33.21%    |
| Market index annual return (reflects no deduction for charges and tax) | 14.07%                       | 19.15%    |

The market index return is MSCI All Country World Net Index in NZ dollars. This has been the market index since the inception of the fund.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

## Annual Return Graph See note 1

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Antipodes Global Fund (PIE) are charged fund charges. In the year to 31 March 2026 these were:

|   | % of net asset value<br>(inc. GST) |
|---|------------------------------------|
| <b>Total fund charges</b>                   | 1.21%                              |
| Which are made up of:                       |                                    |
| Total manager and admin charges (inc. GST)  | 1.21%                              |
| Including:                                  |                                    |
| Manager's basic fee (inc. GST)              | 1.17%                              |
| Other management and administration charges | 0.04%                              |
| Total performance-based fees                | 0.00%                              |

(A) "Manager's basic fee" includes an estimate of the charges incurred in the underlying fund in which the fund invests. The estimate incorporates information provided by the underlying fund manager as well as information sourced from the underlying fund's disclosure documents. (B) See the PDS for more information about the basis on which performance fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Antipodes Global Fund (PIE) on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of \$3,321 (that is 33.21% of his initial \$10,000). This gives Anthony a return after tax of \$3,176 for the year.

### What does the fund invest in? See note 2

This shows the types of assets that the fund invests in.

Actual Investment Mix

Foreign currency was not hedged to New Zealand dollars as at 31 March 2026

"Other" is non-equity derivatives

Target Investment Mix

"International equities" may include Australasian equities.

## Top 10 investments See note 3

|    | Asset Name                                   | % of Fund net assets | Type                   | Country | Credit Rating (if applicable) |
|----|--|----------------------|------------------------|---------|-------------------------------|
| 1  | Amazon.com, Inc.                             | 5.16%                | International equities | US      |                               |
| 2  | Microsoft Corporation                        | 3.70%                | International equities | US      |                               |
| 3  | Total SA                                     | 3.19%                | International equities | FR      |                               |
| 4  | Merck & Co., Inc.                            | 3.18%                | International equities | US      |                               |
| 5  | Brookdale Senior Living Inc.                 | 2.85%                | International equities | US      |                               |
| 6  | Keysight Technologies Inc                    | 2.76%                | International equities | US      |                               |
| 7  | Barrick Mining Corporation                   | 2.50%                | International equities | CA      |                               |
| 8  | Taiwan Semiconductor Manufacturing Co., Ltd. | 2.45%                | International equities | TW      |                               |
| 9  | Capital One Financial Corporation            | 2.12%                | International equities | US      |                               |
| 10 | Societe Generale S.A. Class A                | 2.03%                | International equities | FR      |                               |

The top 10 investments make up 29.93% of the net asset value of the fund.

## Key Personnel

| Name           | Current position                                 | Time in current position | Previous or other current position                         | Time in previous or other current position |
|----------------|--|--------------------------|--|--|
| Graham Hay     | Portfolio Manager, Antipodes Partners            | 10 years 9 months        | Head of Research, Perennial International Equities         | 10 years 1 month                           |

## Further information

You can also obtain this information, the PDS for the Antipodes Investment Funds, and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz>.

---

## Notes

1. The bar chart shows fund returns after deducting fees and tax. Tax is deducted at the highest Prescribed Investor Rate of 28%. However, the market index returns are shown before deducting fees and tax.
2. As well as obtaining equity exposure through long direct equity holdings, the fund also takes short equity positions. As at the date of this fund update, the underlying fund holds long equity positions equating to 112.60% of the fund's net asset value and short equity positions equating to -31.13%, resulting in a net equity exposure of 81.47%. The graph does not disclose short positions as a separate item, but does reflect the net asset exposures (i.e., long exposures minus short exposures) of the underlying fund as a proportion of the net asset value of the Antipodes Global Fund (PIE). Equity exposures include index and single security derivative exposures. Weightings are based off notional values, so the graph may not add up to 100%.
3. Notional values have been used to derive the top 10 investments.
