

# Fund update

For the quarter ended 30 September 2022

- **Russell Investment Funds**
- **Russell Investments Sustainable Global Shares Fund**

This fund update was first made publicly available on: 31 October 2022

## What is the purpose of this update?

This document tells you how the Russell Investments Sustainable Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Implemented Investment Solutions Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

## Description of this fund

**Objective:** To provide a total return, before costs and tax, in line with the MSCI ACWI Index Net over the long term.

**Strategy:** The fund invests predominantly in a broad range of international shares listed on stock exchanges in developed and emerging international markets. The fund will maintain a reduced carbon exposure compared to the Benchmark, whilst also increasing exposure to renewable energy and taking into account other ESG considerations such as the exclusion of controversial weapons, firearms, uranium and tobacco companies. Derivatives may be used to obtain or reduce exposure to securities and markets, to implement investment strategies and to manage risk. Foreign currency exposures are unhedged.

## What are the risks of investing<sup>1</sup>?

Risk indicator for the Russell Investments Sustainable Global Shares Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

## How has the fund performed?

|  | Past year      |
|--|----------------|
| Annual return (after deductions for charges and tax)                   | Not Applicable |
| Annual return (after deductions for charges but before tax)            | Not Applicable |
| Market index annual return (reflects no deduction for charges and tax) | -3.24%         |

The market index return is the MSCI ACWI Index - Net Index. This has been the market index since the inception of the fund. Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

## What fees are investors charged?

Investors in the Russell Investments Sustainable Global Shares Fund are charged which are:

|  | % of net asset value |
|--|----------------------|
| Total fund charges (including GST) <sup>2</sup>          | 0.34%                |
| Which are made up of:                                    |                      |
| Total manager and administration charges (including GST) | 0.34%                |
| Including:   |                      |
| Manager's basic fee                                      | 0.25%                |
| Other management and administration charges              | 0.09%                |

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Russell Investment Funds on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

## Example of how this applies to an investor<sup>3</sup>

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund when the fund received its first contribution, on 14 December 2021, and did not make any further contributions. At the end of the period to 30 September 2022, Anthony incurred a loss after fund charges were deducted of \$955 (that is -9.55% of his initial \$10,000). This gives Anthony a total loss after tax of \$1,046 for the period.

## NOTES

<sup>1</sup> A combination of actual fund returns, and Market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. Market index returns have been used until 31 December 2021 and fund returns thereafter. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.

<sup>2</sup> As the fund only started accepting contributions on 14 December 2021, historical fee information is not available.

<sup>3</sup> As the fund has not existed for a full year, figures in this example are based on returns from the date of the first fund contribution (14 December 2021).
