

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MI Sinfonia Balanced Managed Portfolio Fund - B Income Shares; ISIN: GB00B2R2YM23

MI Sinfonia Balanced Managed Portfolio Fund a sub-fund of MI Sinfonia OEIC. The Fund is a UCITS retail scheme Open Ended Investment Company.

Apex Fundrock Ltd is the Authorised Corporate Director of the Fund ("MI" and "MI Funds" are trading names of the ACD).

Objectives and Investment Policy

The Fund aims to provide returns over the medium to long term (3- 5 years) by a combination of both capital growth and income generation.

The Fund's investment objective will be achieved by investing in a diversified portfolio of fixed interest securities and equities, as well as warrants, and money market instruments, primarily (at least 70%) through investment in a portfolio of collective investment schemes (which may include those managed and/or advised by the ACD or Investment Manager). The Fund will typically be invested in a global portfolio of assets but may focus on UK and European assets. Normally, the Fund will be fully invested except for an amount to enable redemption of shares, efficient management of the Fund in relation to its strategic objectives, and other purposes which may be reasonably regarded as ancillary to the investment objectives of the Fund. However, there may be short periods (e.g. in times of market stress) where it is considered appropriate for the scheme property not to be fully invested (and so for higher levels of liquidity to be maintained).

One measure of risk is the proportion invested in the riskiest assets, such as equities. The Sub-Fund will be actively managed and the investments will be selected with a balanced strategy in mind and so will seek to achieve a balance between higher risk assets (such as equities (and collective investment schemes investing in/providing investment exposure to such assets)) and defensive assets (such as bonds and cash (and collective investment schemes investing in/providing investment exposure to such assets)).

For this Fund, over the long-term (5 years), it is expected that the proportion of the Fund exposed to equities will be approximately 75%. In the shorter term, this weighting may be adjusted tactically as economic and market conditions dictate while not deviating by more than $\pm 12.5\%$. The asset classes in which the Sub-Fund may also invest includes transferable securities, units in collective investment schemes, money market instruments, cash and near cash and deposits.

The Fund is permitted to invest in derivative instruments and forward transactions for investment purposes, however, it is the Investment Manager's intention that the Fund shall utilise derivative instruments and forward transactions for hedging purposes using efficient portfolio management techniques.

Other information:

You can buy and sell shares in the Fund on any business day. If you hold income shares any income from the Fund may be paid out to you.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 3 years. For full investment objectives and policy details please refer to the Prospectus.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.

This Fund is ranked at this rating because funds of this type have experienced average rises and falls in value in the past.

The following risks are material in addition to the risks captured by the indicator above:

Counterparty risk: The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.

Market Risk: External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.

Currency Risk: As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.

Liquidity Risk: adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.

Bond value risk: The Fund has exposure to bonds, the prices of which will be impacted by factors including; changes in interest rates, inflation expectations and perceived credit quality. When interest rates rise, bond values generally fall. This risk is generally greater for longer term bonds and for bonds with higher credit quality.

Derivatives risk: relatively small movement in the price of the underlying security may result in a disproportionately large movement, unfavourable or favourable, in the price of the derivative. Please do not invest if you do not have the level of knowledge required in order to assess and evaluate the risks associated with the use of derivatives by the Fund or the impact of derivatives on your investment.

For further risk information please see the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	Entry charge	5.5%
	Exit charge	0%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial advisor about this.

Charges taken from the Fund over a year	Ongoing charges	1.92%
--	-----------------	-------

Charges taken from the Fund under certain specific conditions	Performance fee	None
--	-----------------	------

The ongoing charges figure is based on expenses and the net asset value as at 31 December 2025. This figure may vary from year to year. It excludes portfolio transaction costs. The Funds annual report for each financial year will include detail on the exact charges made.

You may also be charged a dilution levy on entry to or exit from the Fund, this is to cover costs associated with your transaction. For more information about charges, please see the Prospectus.
