## Fund Objective

To provide a total return, before costs and tax, higher than the Bloomberg NZ Bond Composite 0+ Yr Index over the long term (3 years plus).

## Fund Update

In April, we restructured the Fund by removing Western Asset Management and Harbour Asset Management from the underlying manager line up and replacing them with an internal, model-driven investment strategy. This strategy is designed to deliver excess returns over the Fund's existing benchmark, i.e. the Bloomberg NZ Bond Composite 0+ Year Index. The strategy's investment guidelines are similar to those applied to the previous mandates, which will ensure consistency with the Fund's existing risk profile. Whilst the Fund slightly underperformed overall for the quarter, it modestly outperformed since we implemented the new strategy, benefiting in part from positioning within the credit sector; including our holding in Westpac.
