What are the risks of investing?

Risk indicator for the Trust Management - ESG International Bond Fund¹:

← Lower expected return Higher expected return →

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← Lower risk Higher risk →

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 31 March 2024¹. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

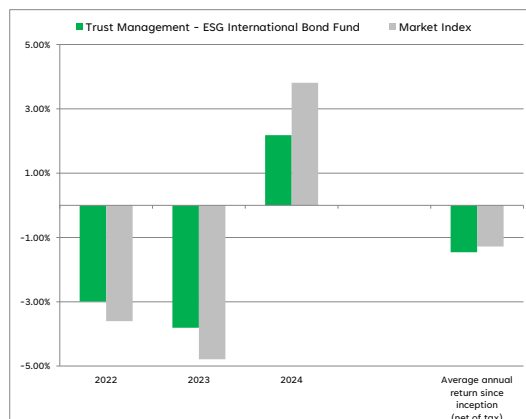

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the Fund performed?

Returns for period ended 31 March 2024	Past Year
Annual Return (after deductions for charges and tax)	2.18%
Annual Return (after deductions for charges but before tax)	3.00%
Market index annual return (reflects no deduction for charges and tax)	3.81%

The market index annual return is based on the Bloomberg Global Aggregate Index hedged to New Zealand Dollars from 1 December 2020, and on the FTSE World Government Bond Index, hedged to New Zealand Dollars up to 30 November 2020. Additional information about the market index is available on the offer register (OFR12861) at <https://discloseregister.companiesoffice.govt.nz/disclose>.

Annual return graph

This graph shows the return after fund charges and tax for each year ending 31 March since the fund's inception. The last bar shows the average annual return since the fund started, up to 31 March 2024.

Important: This does not tell you how the Fund will perform in future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Trust Management – ESG International Bond Fund are charged fund charges. In the year to 31 March 2023 these were:

	% of net asset value
Total Fund Charges <i>Which are made up of:</i>	0.36%
Total management and administration charges <i>Including:</i>	0.36%
Manager's Basic Fee	0.25%
Other management and administration charges	0.11%
Total performance-based fees	Nil

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Trust Management PIE Funds on the offer register (OFR12861) at <https://disclose-register.companiesoffice.govt.nz/disclose> for more information about fees.

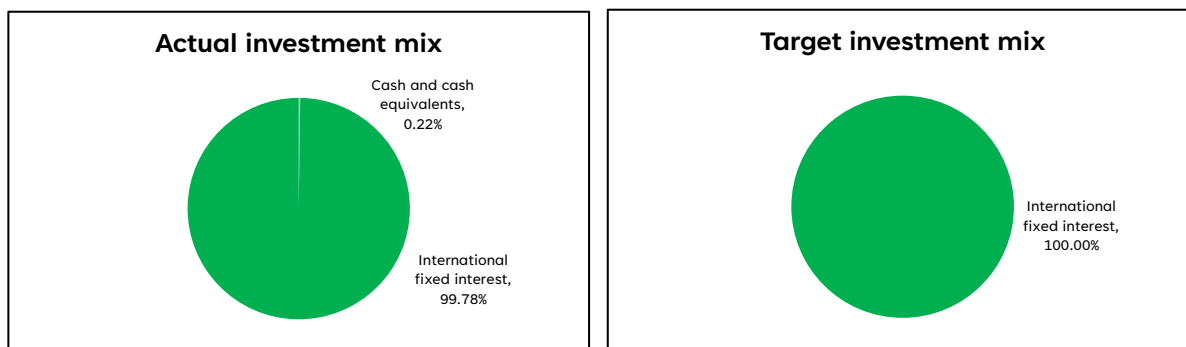

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

The Smith Charitable Trust had \$100,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, the Smith Charitable Trust received a return after fund charges were deducted of \$3,000 (that is 3.00% of the initial \$100,000). This gives the Smith Charitable Trust a total return after tax of \$2,180 for the year.

Notes

1. As the Fund has been operating for less than five years, we have used a mix of actual and market index returns for the five-year period to 31 March 2024 to calculate the risk indicator. The risk indicator is based on the market index returns for the 1 year 0 months to 31 March 2020 when the Fund was not in existence, and then the actual returns for the 4 years 0 months to 31 March 2024. Therefore, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund.
