

Fund Update

For the quarter ended 31 March 2023

- **Hobson Wealth Investment Funds**
- **Hobson Wealth NZ Fixed Interest Fund**

This fund update was first made publicly available on: 03 May 2023

What is the purpose of this update?

This document tells you how the Hobson Wealth NZ Fixed Interest Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: The investment objective of the fund is to provide a return, before costs and tax, higher than the Bloomberg NZ Bond Composite 0+ Yr Index over a rolling three year period.

Strategy: The Fund provides investors with exposure to a diversified portfolio of predominantly investment grade New Zealand dollar denominated fixed interest securities.

Total value of the fund	\$NZ 13,810,823
The date the fund started	24 October 2019

What are the risks of investing?¹

Risk indicator for the Hobson Wealth NZ Fixed Interest Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 31 March 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

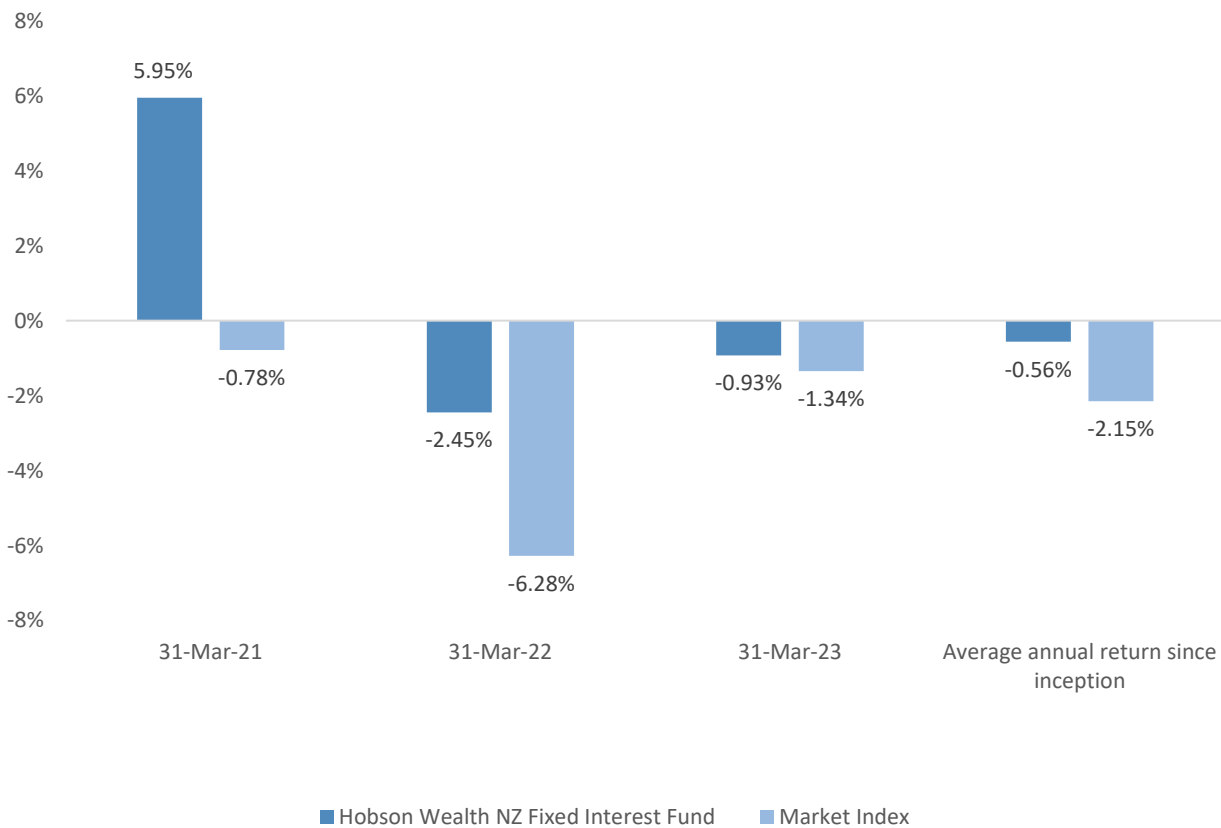

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	-0.93%
Annual return (after deductions for charges but before tax)	-1.26%
Market index annual return (reflects no deduction for charges and tax)	-1.34%

The market index return is the Bloomberg NZ Bond Composite 0+ Yr Index. This has been the market index since the inception of the fund. Additional information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual Return Graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2023.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Hobson Wealth NZ Fixed Interest Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of net asset value (including GST)
Total fund charges	1.32%
Which are made up of:	
Total manager and administration charges	1.32%
Including:	
Manager's basic fee (including GST)	1.32%
Other management and administration charges	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Hobson Wealth NZ Fixed Interest Fund on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony incurred a loss after fund charges were deducted of \$126 (that is -1.26% of his initial \$10,000). This gives Anthony a total loss after tax of \$93 for the year.

Further information

You can also obtain this information, the PDS for the Hobson Wealth Investment Funds, and some additional information from the offer register at www.disclose-register.companiesoffice.govt.nz.

Notes

¹ A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility. Market index returns have been used until 31 October 2019 and fund returns thereafter.

² The bar chart shows fund returns after deducting fees and tax. Tax is deducted at the highest Prescribed Investor Rate of 28%. However, the market index returns are shown before deducting fees and tax.
