

Fund Update

For the quarter ended 31 March 2022

- **Colchester Investment Funds**
- **Colchester Global Government Bond PIE Fund**

This fund update was first made publicly available on: 03 May 2022

What is the purpose of this update?

This document tells you how the Colchester Global Government Bond PIE Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Implemented Investment Solutions Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: The Fund aims to achieve favourable income and capital returns from a globally diversified portfolio of primarily sovereign debt or debt-like securities and currencies. An associated objective is the preservation and enhancement of principal.

Strategy: The Fund invests in the Colchester Global Bond Enhanced Currency Fund (Underlying UCITS Fund) and cash or cash equivalent securities. The Underlying Fund holds an actively managed portfolio of sovereign bonds, investment grade corporate bonds, mortgage securities, currencies and other similar securities. The Underlying Fund can also invest in emerging market debt, high yield debt, and below investment grade non-sovereign and corporate debt. The Underlying Fund may use derivatives.

Total value of the fund	\$NZ 7,974,748
The date the fund started	21 April 2021

What are the risks of investing?

Risk indicator for the Colchester Global Government Bond PIE Fund¹.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not Applicable
Annual return (after deductions for charges but before tax)	Not Applicable
Market index annual return (reflects no deduction for charges and tax)	-3.68%

The market index return is the FTSE World Government Bond Index hedged into New Zealand dollars. This has been the market index since the inception of the fund. Additional information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

What fees are investors charged?

Investors in the Colchester Global Government Bond PIE Fund are charged fund charges which are:

	% of net asset value (including GST)
Total fund charges (estimate) ²	0.77%
Which are made up of:	
Total manager and administration charges	0.77%
Including:	
Manager's basic fee (including GST)	0.77%
Other management and administration charges	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Colchester Investment Funds on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about those fees.

Example of how this applies to an investor³

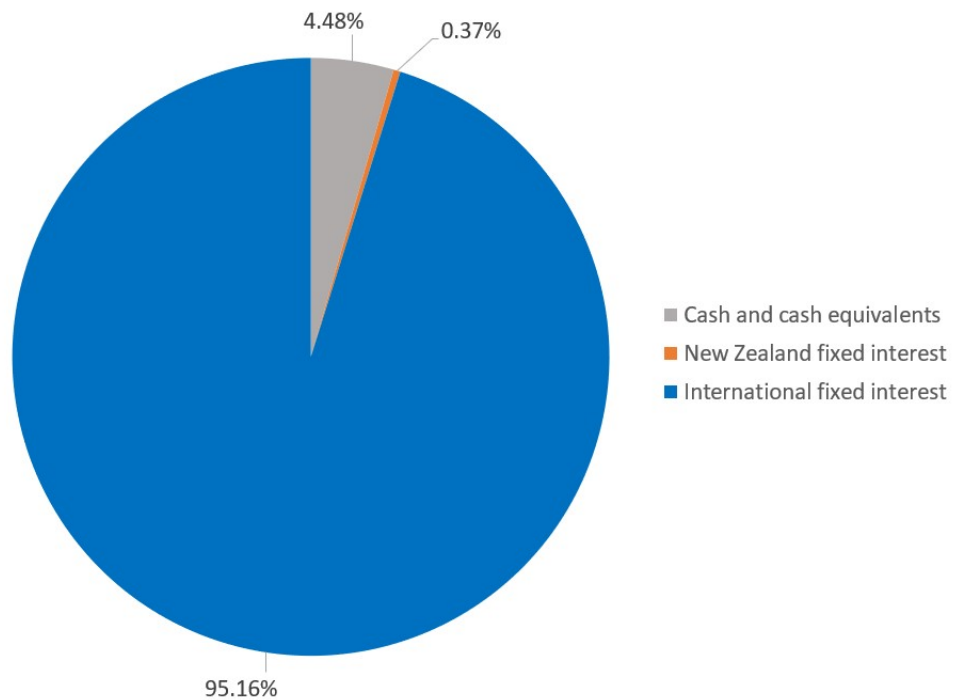

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund when the fund received its first contribution, on 21 April 2021, and did not make any further contributions. At the end of the period to 31 March 2022, Anthony incurred a loss after fund charges were deducted of \$627 (that is -6.27% of his initial \$10,000). This gives Anthony a total loss after tax of \$453 for the year.

What does the fund invest in?

This shows the types of assets that the fund invests in.

Actual investment mix

Foreign currency exposure was 98.25% hedged to New Zealand dollars as at 31 March 2022

Target investment mix

Further information

You can also obtain this information, the PDS for the Colchester Global Government Bond PIE Fund, and some additional information from the offer register at www.disclose-register.companiesoffice.govt.nz.

Notes

¹ A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. Market index returns have been used until 30 April 2021 and fund returns thereafter. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.

² As the fund only started accepting contributions on 21 April 2021, historical fee information is not available.

³ As the fund has not existed for a full year, figures in this example are based on returns from the date of the first fund contribution (21 April 2021).
