

Fund Update

For the quarter ended 30 September 2026

- Pella Investment Funds
- Pella Global Generations PIE Fund

This fund update was first made publicly available on: 29 October 2026

What is the purpose of this update?

This document tells you how the Pella Global Generations PIE Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: The Fund's investment objective is to obtain returns greater than the MSCI All Country World Index Net Total Return (in NZ dollars) and with lower volatility than the benchmark, over the medium to long term by investing in long-only equities, subject to the Investment Manager's ethical investment processes.

Strategy: The Investment Manager believes it is possible to consistently generate excess returns by creating a diversified portfolio of highly cash flow generative companies with favourable outlooks that are trading at attractive valuations.

Total value of the fund	\$74,857,518
The date the fund started	4 April 2025

What are the risks of investing? See note 1

Risk indicator for the Pella Global Generations PIE Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 Sep 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	-1.36%
Annual return (after deductions for charges but before tax)	-0.32%
Market index annual return (reflects no deduction for charges and tax)	20.07%

The market index return is MSCI All Country World Index Net Total Return (in NZ dollars). This has been the market index since the inception of the fund.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

What fees are investors charged? See note 2

Investors in the Pella Global Generations PIE Fund are charged fund charges which are:

	% of net asset value (inc. GST)
Total fund charges	0.85%
Which are made up of:	
Total manager and admin charges (inc. GST)	0.85%
Including:	
Manager's basic fee (inc. GST)	0.85%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Pella Global Generations PIE Fund on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony incurred a loss after fund charges were deducted of \$32 (that is -0.32% of his initial \$10,000). This gives Anthony a loss after tax of \$136 for the year.

What does the fund invest in?

This shows the types of assets that the fund invests in.

Further information

You can also obtain this information, the PDS for the Pella Investment Funds, and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz>.

Notes

1. A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.
2. As the fund has not completed a full scheme year as at 31 March 2026, historical fee information is not available. The figures in the table are estimates based expectations and assumptions regarding in-fund costs, taxes, management fees, and the fund's net asset value.
