Section H: Term and Conditions

- FundRock provides access to many portfolios offered by the market. Should you require any financial planning assistance, please consult your financial advisor as FundRock may not provide financial advice in respect of any investment.
- This application form together with the Main Deed and Supplemental Deed will form the legal agreement between the investor, FundRock and the asset manager. The agreement will be administered in terms of CISCA. FundRock may in its sole discretion accept or reject the investor's application form.
- The FundRock portfolios shall be priced to reflect the Net Asset Value ("NAV") prices as at the last business day of the month.
- Participatory interests are calculated on a NAV basis by determining the total market value of all assets in the portfolio, including any income accruals, less any permissible deductions from the portfolio. Participatory interests on investor statements are thus net of all fees.
- Participatory interests will be purchased and repurchased by the manager at the NAV calculated in accordance with the requirements of CISCA and the relevant deeds.
- Quarterly reports are available for download from the FundRock Website. FundRock will email monthly statements and contract notes on execution of transactions. Tax certificates are generated and distributed annually, if applicable.

- FundRock reserves the right to terminate this contract by giving a calendar month's notice to the investor. Participatory interest shall be repurchased on the first business day of the following month after notification of termination at the ruling price of the last NAV. - Commission and incentives may be paid and if so, would be included in the overall costs.
- The responsibility of ensuring that the instruction has been received and actioned by FundRock will lie with the instructor (investor or financial advisor).
- No physical cash payments will be accepted, and a proof of payment must accompany all EFT payments.

- In certain circumstances (such as large redemptions), FundRock may employ ring-fencing, which is the separation of underlying assets in a portfolio and the delayed sale/repurchase of corresponding units. This is done to avoid prejudicing other investors through the sale of assets at weaker prices.
- Copies of all verification documentation requested in this application form and a proof of payment must accompany this application form. FundRock will not be obliged to process this application form until it has received the verification documentation and FundRock will not be liable for any loss or damage of whatsoever nature arising from the inability of FundRock to process this application form due to the fact that the requirements of the FICA have not been complied with.
- The investor indemnifies and holds FundRock harmless against any loss or damage which the investor may suffer as a result of any commission or omission by FundRock, which is a result of an obligation imposed on FundRock by FICA. Section K: Mandatory Disclosure

Collective Investment Schemes are generally medium to long-term investments. The value of participatory interests (units) or the investment may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending (i.e. borrowing and lending of assets). The manager does not provide any guarantee, either with respect to the capital or the return of a portfolio. Different classes of participatory interests apply to these portfolios and are subject to different fees and charges. A schedule of fees, charges, minimum fees, and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from FundRock.

FundRock does not provide any guarantee in respect of the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commission and incentives may be paid, and if so, are included in the overall costs. The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where funds are invested in off-shore assets, performance is further affected by uncertainties such as potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks and potential limitations on the availability of market information. Prices are published in accordance with the valuation frequency of the portfolio, on our website and local media. Additional information, including Key Investor Information Document, Minimum Disclosure Document, as well as other information relating to the portfolio is available, free of charge, on request from FundRock. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy. The Manager of the CIS may, at its discretion, close the fund/s you have chosen to new investors and to additional investments by existing investors to make sure that it is managed in accordance with its mandate. A money market fund is not a bank deposit account and aims to maintain a constant price of 100 cents per participatory interest in such scheme. A Feeder fund may only invest in a single portfolio of a CIS which levy its own charges that could result in a higher fee structure for these funds. Foreign securities including foreign CISs may be included in underlying CIS portfolios. As a result, those CIS portfolios may face material risks. The volatility of the CIS may be higher and the liquidity of the underlying securities comprising the applicable portfolio of the CIS may be restricted due to relative market sizes and market conditions. The CIS's ability to settle securities and to repatriate investment income, capital or the proceeds of sales of securities may be adversely affected for multiple reasons including market conditions, macro-economic and political circumstances. A fund of funds is a portfolio that invests in portfolios of collective investment schemes (unit trusts) that levy their own charges, which could result in a higher fee structure for the fund of funds.
