#### What are the risks of investing?

Risk indicator for the Trust Management - Property Fund<sup>1</sup>:

| ← Lower expected return Highe |        |   | Higher | expected | return 🗲 |                 |
|-------------------------------|--------|---|--------|----------|----------|-----------------|
| 1                             | 2      | 3 | 4      | 5        | 6        | 7               |
| ← Lowe                        | r risk |   |        |          | Highe    | r risk <b>→</b> |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <u>www.sorted.org.nz</u>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 September 2024<sup>1</sup>. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

Trust Investments Management Limited is relying on the Financial Markets Conduct (Market Index) Exemption Notice 2024. There is no appropriate market index or suitable peer group index that would be helpful for investors to assess either movements in the market in relation to the returns from the assets in which the Trust Management -Property Fund invests or the performance of the Fund as a whole.

# Annual return graph

This graph shows the return after fund charges and tax for each year ending 31 March since the fund's inception. The last bar shows the average annual return since the fund started, up to 30 September 2024.

**Important**: This does not tell you how the Fund will perform in future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an

individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Trust Management – Property Fund are charged fund charges. In the year to 31 March 2024 these were:

|  | % of net asset<br>value |
|--|-------------------------|
| Total Fund Charges   | 0.86%                   |
| Which are made up of:<br>Total management and administration |                         |

| Manager's Basic Fee  | 0.75%                   |
| Other management and administration charges                  | 0.11%                   |
| Total performance-based fees                                 | Nil                     |

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Trust Management PIE Funds on the offer register (OFR12861) at https://disclose-

<u>intips.//uisciuse</u>

<u>register.companiesoffice.govt.nz/disclose</u> for more information about fees.

# Example of how this applies to an investor

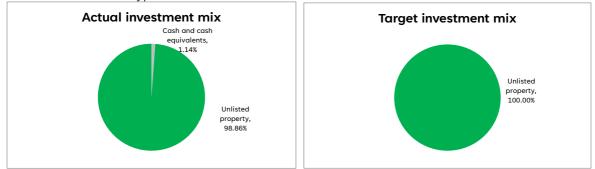

Small differences in fees and charges can have a big impact on your investment over the long term.

The Smith Charitable Trust had \$100,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, the Smith Charitable Trust received a return after fund charges were deducted of \$200 (that is 0.20% of the initial \$100,000). This gives the Smith Charitable Trust a total loss after tax of \$780 for the year.

#### Notes

1. As the Fund has been operating for less than five years, we have used a mix of actual returns and the historical returns data of the Trust Investments – Property Fund (the Property GIF) which was formerly offered under the Trust Investments – Group Investment Funds scheme (on 1 April 2020 the Fund acquired all the assets of the Property GIF under a scheme restructure). The risk indicator is based on the historical return for the Property GIF for the 6 months to 31 March 2020 when the Fund was not in existence, and then the actual returns for the 4 years 6 months to 30 September 2024. We reasonably consider use of the historical returns data from the Property GIF to calculate (in part) the risk indicator for the Fund the most appropriate way to reflect the potential future volatility of this Fund.
