\*The risk category shown is not guaranteed and may change over time. The lowest category does not mean the investment is risk free. There may be other special areas of risk relating to the investment including liquidity risk, credit risk, market risk, and settlement risk. FundRock Management Company (RF) (Pty) Ltd, ("the manager"), and the investment manager do not render financial advice. Our risk indicator does not imply that the portfolio is suitable for all types of investors. You are advised to consult your financial adviser

#### List of Portfolios

##### FR Collective Investment Scheme

- \* Oakhaven Bond FR Fund
- \* Oakhaven Core Income FR Fund

##### FR Qualified Investor Hedge Fund Scheme

- \* Oakhaven Strategic Fixed Income FR QI Hedge Fund

#### Portfolio Objective

The portfolio will aim to deliver levels of out-performance in its asset category

#### Investment Policy

To create a return blended from cyclical and secular relative value plus directional opportunities. Assets will be sourced in the South African market, across government bonds, money market instruments, cash and interest rate derivatives. Underlying this is an investment process based on macro-economic research to identify these opportunities and monetize them in the most efficient way possible from a risk management perspective.

#### The Portfolio's Valuation and Pricing Methodologies

The portfolio will apply the portfolio valuation and asset pricing policy of the manager. This policy will be consistently applied and meets the requirements of the BN52.

#### Investment Restrictions applicable to the Portfolio

The Portfolio's total exposure and total leverage will only be restricted and limited through the value-at-risk ("VAR") approach.

- \* VAR limit of 20% at 99% confidence level calculated over 10 days
- \* Directionality not to exceed 5 times ALBI Modified Duration
- \* Corporate Bonds
  - \* AAA not exceeding 5 x NAV, Issuer size limited to 30% NAV
  - \* AA not exceeding 3 x NAV, Issuer size limited to 20% of NAV
  - \* Lower, 1 x NAV, Issuer size limited to 20% of NAV

#### May the Portfolio Invest in Underlying Funds?

Yes, the margin is invested into a core income fund to extract margin with liquidity.

#### The Types of Assets in which the Portfolio may invest

The portfolio may invest in a range of investment products including, but not limited to:

- \* Equity securities;
- \* Non-equity securities;
- \* Quasi-equity securities.

These categories include:

- \* Debentures;
- \* Warrants;
- \* Options;
- \* Futures;
- \* Financial derivatives;
- \* Money market instruments, and;
- \* Bonds;
- \* Shares;
- \* Stocks

#### The Liquidity Risk Management of the Portfolio and the Repurchase Rights

Liquidity management is facilitated through real time monitoring of the portfolio liquidity profile using both an independent third party risk monitoring system and internal proprietary system.

The investment manager shall ensure that the liquidity of the securities included in the portfolio shall not compromise the liquidity terms of the portfolio.

#### Delegated Administration and Management of Conflict of Interest that May Arise

The Manager has appointed Apex Fund and Corporate Services SA (Pty) Ltd as the administrator. Both entities are subject to separate governance structures and independent oversight and internal controls; as well as the Financial Sector Conduct Authority ("FSCA") regulatory oversight. Both entities have satisfied the FSCA in terms of the conflict of interest policy they have in place. The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them. In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

### Changes to the Investment Strategy and/or Investment Policy

In order to amend any provision(s) contained in the supplemental deed, the manager has to request and receive prior approval from FSCA. Such request shall state the reasons for the proposed amendment and the impact or benefit this is likely to have for the investor.

Upon receiving such approval, the auditor of the scheme must oversee a balloting process which is undertaken to obtain consent from the investors

Investors holding at least 75% (seventy five per cent) in value of the participatory interests in the portfolio and who constitute more than 50% (fifty per cent) of the portfolio's investors must vote in favour of the amendment for the amendment to be effected.

Voting shall be conducted by electronic ballot in accordance with the provisions of the deed, and the manager shall, after having dispatched the ballots to investors, allow for a period thirty days for investor to return the ballots

### Material Arrangements of the Manager with the Prime Broker

#### Manner of Managing Conflicts of Interest

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them

In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimise the effect on any affected party by such conflict.

#### Level of Counterparty Exposure

The portfolio will comply with the counterparty exposure limits as set out in BN52

#### Methodology of Calculating Counterparty Exposure

In terms of section 8(2) of BN52 counterparty exposure shall be calculated to equal any initial margin held by a counterparty, the market value of any derivative, any net exposure generated through a scrip lending agreement and any other exposures created through reinvestment of collateral

### Provisions in the Contract with the Depositary and Custodian on the Possibility of Transfer and Re-hypothecation of Assets

The prime broking agreement may allow for the re-hypothecation of assets.

The portfolio's prime broker may provide a financing service to the portfolio, whereby any shortfall in the financing of the portfolio's assets is provided by the prime broker. Any such financing will be collateralised from the assets of the portfolio. However, unlike a normal borrowing situation, the prime broker takes physical delivery of the portfolio's assets and is permitted to deal with them for its own account. The portfolio's assets are therefore treated as being indistinguishable from the assets of the prime broker and are not segregated as client money or assets.

In the event of the insolvency of the prime broker, the assets of the portfolio that are held as collateral against money owed to the prime broker, are completely exposed to the prime broker's creditors. In such instances, any action by the prime broker's creditors may lead to the closing out of positions without the consent of the investment manager and at a loss.

#### Preferential Treatment

The directors and employees of the investment manager may hold an investment in the portfolio. These investment may be allocated into a non-fee paying class with a 0% base fee and a 0% performance fee. These investments may be zero fee paying at the discretion of the investment manager.

#### Special Repurchase Arrangements or Rights of Some Investors

None

#### Other Fees

The portfolio may directly deduct and pay other fees if such payments are permitted in terms of Section 93 of CISCA and are due and payable under lawful agreement.

### Instances where the Portfolio may Use Leverage

#### The Types and Sources of Leverage

Hedge Funds can generate leverage by:

- \* shorting securities and utilising the proceeds to purchase additional securities;
- \* utilising derivative instruments that have leverage built into their construction, or;
- \* borrowing money - typically achieved through repurchase transactions or physical borrowing of cash.

#### Risks Associated with the Leverage

The portfolio may use leverage techniques from time to time to purchase or carry investments. The interest expense and other costs incurred in connection with such leverage or borrowing may not be recovered by an appreciation in the investments purchased or carried. Gains realised with leveraged investments may cause the underlying fund's net asset value to increase at a faster rate than would be the case without leverage. If, however, investment results fail to cover the cost of leverage or borrowings, the portfolio's net asset value could also decrease faster than if there had been no leverage or borrowings. Because of the leveraged nature of certain of the investments, a relatively small movement in the market price of traded instruments may result in a disproportionately large profit or loss.

#### Restrictions on the Use of Leverage

The degree to which leverage may be employed in the portfolio shall be limited by the terms of the mandate. The limits laid down in the mandate should be carefully reviewed in making an investment decision

#### Collateral and Asset Re-Use Arrangements

The cash and long positions held in the portfolio are available for use as collateral for the short positions held.

### The Maximum Leverage allowed for the Portfolio

#### Value-at-Risk approach (VAR):

VAR Limit	20%
Probability level	99%
Period	10 days

#### The Latest Annual Report

The latest annual report of the portfolio shall be kept at the office of the Manager for viewing by the investor.

#### Selling and Issuing Participatory Interest in the Portfolio Purchase of Participatory Interests

Purchases of participatory interests will be effective on the first day of each calendar month. Applications for new purchases as well as the purchase amount need to be received no later than 10:00 on the last business day of the previous calendar month.

#### Minimum Investment Amount

R 1,000,000.00 (One Million Rand)

The investor shall complete a subscription form and return to the Manager no later than 10:00 on the last business day of the previous calendar month for the investment to be processed and participatory interest (units) allocated in favour of the investor on the 1st day of the new calendar month.

The Manager may not sell any participatory interests (units) except on terms requiring the full payment of the selling price.

#### Gating, Side-Pocketing and Repurchase Restrictions

Sections 5(b) (ii) and 6(5) of BN52 provide that both retail hedge funds and qualified investor hedge funds may suspend the repurchases of units under exceptional circumstances and when it's in the interests of investors.

### Fair Treatment of Customers

The Manager observes a policy of Treating Customers Fairly (“TCF”) and this permeates throughout the business and informs all business dealings of the Manager. The Manager strives to design, distribute, and provide products that meet the objectives of the TCF code and all investors investing in our products - simple and complex - are encouraged to seek qualified financial advice in order to select and invest in a product that not only meets their requirements, but is to their level of understanding and sophistication.

### The Charges Paid by the Portfolio

These charges make up the running costs of the portfolio.

Permissible deductions from a portfolio shall include:

- \* Initial fee & VAT;
- \* Investment management fee;
- \* Administration fee;
- \* Exit fee;
- \* Trading charges eg.brokerage,securities transfer tax,VAT, and other levies
- \* Auditor’s fees;
- \* Bank charges; and
- \* Trustee and custodian fees

### Investment Management Fees, Charges, and Expenses - Class 3

Service Fee	0.69% (excluding VAT)
Performance Fee	15%
Hurdle/Benchmark	SAONBOR +1%

The portfolio may offer multiple classes of units for different types of investors and unit holders. The various classes in the portfolio may each have different fee structures for the different types of investors

All investments will be allocated to specific classes at the discretion of the investment manager. All classes of units in the portfolio will invest in the same investment portfolio of securities and share the same investment objective and policy.

For more detailed information about charges and how these are calculated, a detailed fee methodology is available on request from the Manager.

### The Repurchase of participatory interests

Repurchase notification date will be 1 (one) calendar month prior to the repurchase pricing date. Repurchase payment date will be 14 (fourteen) business days after the repurchase pricing date.

### Mandatory Disclosures

Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interest (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges, minimum fees, and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from FundRock Management Company (RF) (Pty) Ltd (“the Manager”).The Manager does not provide any guarantee in respect to the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commissions and incentives may be paid, and if so, are included in the overall costs. The Manager may close the portfolio to new investors in order to manage it efficiently according to its mandate. Prices are published monthly on our website. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the Manager. The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interests and exchange rates and other economic factors. Where foreign investments are included in the portfolio, performance is further affected by uncertainties such as changes in government policy, political risks, tax risks, settlement risks, foreign exchange risks, and other legal or regulatory developments. The Manger ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy. The Manager is registered and approved by the Financial Sector Conduct Authority under Cisca. The Manager retains full legal responsibility for the portfolio. FirstRand Bank Limited, is the appointed trustee. The Financial Services Provider (“FSP”), Oakhaven Capital (Pty) Ltd (FSP no 43738), is authorised under the Financial advisory and Intermediary Services Act 37 of 2002 to render investment management services
