What is the purpose of this update?

This document tells you how the Resolution Capital Global Property Securities PIE Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: The Fund aims to provide income and some capital growth over the long-term. In particular, the Fund aims to achieve an annual total return that exceeds the total return of the benchmark after fees on a rolling 3 year basis.

Strategy: The Fund primarily invests in listed property and property-related securities, including real estate investment trusts (REITs), that derive most of their returns from rental income. The Fund's investments provide exposure to a range of underlying real estate from around the world including but not limited to office buildings, shopping centres, industrial warehouses, residential communities, data centres and towers, self-storage, hotels and healthcare facilities. The Fund may also have exposure to companies which undertake activities such as real estate development, real estate construction contracting and real estate funds management activities.

Total value of the fund	\$94,201,379
The date the fund started	26 August 2024

What are the risks of investing?^{See note 1}

Risk indicator for the Resolution Capital Global Property Securities PIE Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 Mar 2025. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

Notes

1. A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.
2. As the fund has not completed a full scheme year as at 31 March 2025, historical fee information is not available.
3. As the fund has not existed for a full year, figures in this example are based on returns from the date of the inception date.
