## FP Argonaut European Income Opportunities Fund, a sub-fund of FP Argonaut Funds

Class R (GBP) Retail Accumulation Shares  
Class R (GBP) Retail Income Shares

(ISIN: GB00BDSFHH38)  
(ISIN: GB00BDSFHG21)

The Fund is managed by FundRock Partners Limited

### Objective and investment policy

#### Objective:

The Fund aims to provide an income in excess of the yield of the MSCI Europe ex UK Index, with long term capital growth.

#### Policy:

The Fund will invest in a concentrated portfolio of approximately 30-60 stocks. The Fund will invest predominantly in securities of companies incorporated in Europe (including up to 5% in UK companies).

The Fund may also invest in companies that are headquartered or quoted outside Europe which derive a significant part of their business from Europe and whose securities are listed or traded on an eligible securities or derivatives exchange. The Fund may also invest in emerging European markets including Russia and Eastern Europe.

The Fund is not constrained by any index weightings and will not concentrate on any particular country, sector or market capitalisation.

To aid liquidity, the Fund also has the ability to invest in assets such as American Depositary Receipts and Global Depositary Receipts.

The Fund may also invest in other transferable securities, units in collective investment schemes, money market instruments and deposits.

The Fund may make use of derivatives and forward transactions for the purposes of investment and for efficient portfolio management, including the use of hedging techniques and stock lending.

#### Other information:

- we carry out investors' requests, to buy, sell or switch, at midday on each working day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next working day.
- if you hold accumulation shares, income from your investment will be rolled up into the value of your shares;
- if you hold income shares, income from your investment is paid out to you four times a year.
- we use derivatives (contracts whose value is linked to the expected future price movements of an underlying asset) to reduce the risks otherwise associated with making investments in currencies other than the Fund's accounting currency (Sterling).
- the Fund has discretion in its choice of investments and, except as detailed in the policy above, is not restricted by the industry or sector it trades in.

- Class R (GBP) Retail Shares are denominated in Sterling.
- recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

	Typically lower rewards				Typically higher rewards		
	Lower risk				Higher risk		
Class R (GBP) Retail Acc	1	2	3	4	5	6	7
Class R (GBP) Retail Inc	1	2	3	4	5	6	7

- this indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- the risk category shown is not guaranteed to remain unchanged and may shift over time.
- the lowest category does not mean 'risk free'.
- the Class R Shares above appear as "5" on the scale. This is partly because the Fund invests in the shares of companies, whose values tend to vary more widely.

*The indicator above does not take account of the following risks of investing in the Fund:*

- the Fund invests in shares and the value of these investments may go up and down. Investors may not get back the original amount invested.
- the Fund will hold a limited number of investments which may increase the chance of gains but can lead to more risk than where investments are held more widely.
- changes in exchange rates may mean the value of your investment goes up and down.
- there is a risk that a bank or building society could face financial problems, leading to the loss of some or all of any money on deposit.
- there is a risk that third parties that the Fund enters into investment contracts with will fail to meet their obligations and the Fund may suffer a loss.
- the Fund may use derivatives for investment purposes and efficient portfolio management which should not lead to an increase in risk to the Fund.

*For full details of the Fund's risks please see Section 5 of the Fund's Prospectus.*
