

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FP SCDavies Global Alternatives Fund, a sub-fund of FP SCDavies Funds

Class £-Sterling Accumulation Shares (ISIN GB00B62WJ318)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

Capital growth over the long term.

Policy:

- The Fund will invest in a range of:
 - Regulated funds (which are collective investment schemes where retail investors' money is pooled to buy investments);
 - Money market instruments (which are a type of security where cash can be deposited for short periods);
 - Other types of shares, bonds (contracts to repay borrowed money with interest at fixed intervals) and other types of investments which are mainly bought or sold on stock markets, and which can include structured products which are a type of investment which pay a return linked to a particular asset or index; and
 - Derivatives (contracts where value is linked to the expected future price movements of an underlying asset);
 - In each case to get indirect exposure to property, commodities (such as oil or gold), hedge funds (a type of fund), currency funds (funds investing in currency) and convertible bonds (assets which provide income or capital and can be exchanged for more valuable assets if their value increases enough);
- We can invest 100% of the Fund at all times unless we decide this is not appropriate in certain circumstances;
- We may use derivatives for efficient portfolio management which should not

lead to an increase in risk to the Fund;

- We may borrow money.
- We may use investment techniques e.g. hedging to protect the value of the Fund, in order to reduce the risks otherwise associated with making investments in currencies other than the Funds accounting currency (Sterling).

Benchmark:

The Fund uses ICE LIBOR 3 month rate (LIBOR) for performance comparison purposes only ("Performance Comparator"). The Performance Comparator is used to compare the indicative returns of the Fund against LIBOR. (LIBOR is the rate of interest at which banks offer to lend money to each other in the wholesale money markets in London.) The Performance Comparator does not represent, or act as, a constraint in the selection of individual investments in the Fund or the management of the Fund's portfolio. The performance of the Fund may deviate materially from the performance of LIBOR.

Other information:

- We carry out investors' requests to buy, sell or switch, at 7:00am on each working day (which excludes UK public holidays). If we receive a request after 7:00am, we deal with it on the next working day.
- As you hold accumulation shares income from investments in the Fund will be rolled up into the value of your shares.
- Class £-Sterling Accumulation Shares are denominated in Sterling
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 7 years.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The Fund appears as a "3" on the scale as it experiences some rises and falls due to the variety of assets chosen. The Fund uses derivatives which may reduce the impact of variations in value.

The indicator above does not take account of the following risks of investing in the Fund:

- The Fund holds investments which usually have sufficient availability and demand but, in some circumstances, could suffer from low availability or demand which may make them more difficult to buy or sell.
- The Fund holds investments which are backed by third parties who could fail to meet their obligations and the Fund may suffer a loss.
- Stock market prices, currencies and interest rates can move irrationally and can be affected unpredictably by diverse factors, including political and economic events.
- Derivatives and warrants will be used in the Fund for the purposes of investment. The nature of this investment means that the Fund will be classified as a high volatility fund with regard to its Net Asset Value. However, it is the ACD's intention that the use of derivative techniques and investment in warrants is aimed at reducing the volatility of the Fund. The ACD will seek to minimise volatility by targeting a range of non correlated assets.

For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the at ACD at FundRock Partners Limited – SCDavies, PO Box 10832, Chelmsford, CM99 2BQ or, during normal business hours on 01268 44 8654.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Class £-Sterling Acc

Entry Charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the fund over a year

Ongoing charge	3.14%
----------------	-------

Charges taken from the fund Under a certain specific conditions

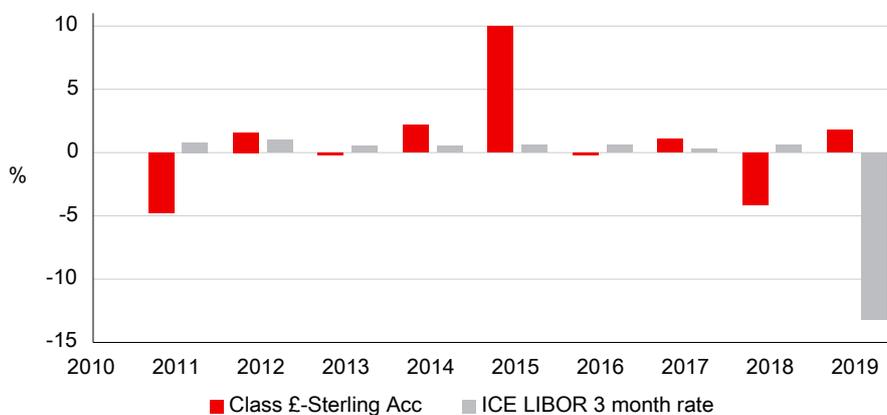

Performance fee	-
-----------------	---

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less - you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based on expenses for the period ending 31 August 2019 and may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/selling units in another fund. In general, however, the figure excludes other portfolio transaction costs. The ongoing charges are taken from investments and not the income these investments produce. Investments in the Fund may be sold to meet ongoing charges and the value of your shares would be reduced.

For more information about charges please see Section 7 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited – SCDavies, PO Box 10832, Chelmsford, CM99 2BQ or, during normal business hours on 01268 44 8654. For more details please see the Supplementary Information Document (SID) which is available at www.FundRock.com or on the above number.

Past performance
