

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FP Octopus Global Growth Fund, a sub-fund of FP Octopus Investment Funds

Class D Accumulation (ISIN GB00BW0DKY61)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

The Fund aims to achieve capital growth over the medium to longer term (not less than 5 years).

Policy:

- The Fund will seek to achieve its objective by investing not less than 80% of the Fund's assets directly or indirectly in shares globally.
- Indirect exposure will be through investing in collective investment schemes (such as unit trusts and OEICs, both regulated and unregulated), but also through exchange traded funds and closed ended schemes. The Fund may also invest directly in individual stocks during market stress.
- Foreign currency exposure may be hedged back into £-Sterling.
- The Fund may also directly invest in other transferable securities, money market instruments, cash and near cash, and deposits.
- The Fund may use derivatives for investment purposes as well as for efficient portfolio management purposes (including hedging). Use of derivatives for investment purposes will be infrequent.
- The Fund does not currently but may in future use securities lending for the purposes of efficient portfolio management.

Benchmark:

For the purpose of providing comparable indicative returns only, investors should refer to the Investment Association (IA) Global sector ("Comparator Benchmark").

- The Comparator Benchmark has been chosen by the ACD as it reflects the geographical diversification of the Fund and its bias towards investment in global equities.
- The Comparator Benchmark does not represent, or act as, a constraint in the selection of individual investments in the Fund or the management of the Fund's portfolio.
- The Comparator Benchmark is used to compare the Fund's performance to the performance of other funds in the (IA) Global sector over a variety of time frames.

Other information:

- You can buy and sell shares on most business days where the London Stock Exchange is open for a full range of services.
- The Fund's base currency is Pounds Sterling.
- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.
- Investment in the Fund should be regarded as long-term, which is upwards of three to five years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- As you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.

Risk and reward profile

◀ Lower Risk

Typically lower rewards

Higher Risk ▶

Typically higher rewards

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The Class D Shares above appear as a "5" on the scale. This is partly because the Fund invests in the shares of companies, whose values tend to vary more widely.
- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.
- In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:
 - Counterparty Risk—The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.
 - Liquidity Risk—Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.
 - Management Risk—Investment management techniques that have worked in normal market conditions could prove ineffective or detrimental at other times.
 - Exchange Rate Risk—Fluctuations in exchange rates may cause the value of your investment to rise or fall.
- Investing in other collective investment schemes - As an investor of another

collective investment scheme, the Fund will bear, along with the other investors, its portion of the expenses, including management, performance and/or other fees. These fees will be in addition to the management fees and other expenses which a Fund bears directly with its own operations.

- Non-UCITS Retail Schemes (NURS) - The Fund is classed as a NURS and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas. It can also invest to a greater extent in areas such as property and unregulated schemes and have the option to borrow on a permanent basis. Such additional powers can increase potential reward, but may also increase risk.
- Exchange Traded Funds - The Fund may invest in Exchange Traded Funds which represent a basket of securities that are traded on an exchange and may not necessarily trade at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.
- Derivatives and volatility - Derivatives may be used for investment and efficient portfolio management (EPM). Where the ACD invests in derivatives and forward transactions, the net asset value of the Fund may at times be volatile (in the absence of compensating investment techniques). However, it is the ACD's intention that the Fund will not have volatility over and above the general market volatility of the markets of its underlying investments and that the use of derivatives and forward transactions in the pursuit of the objective will not cause the risk profile to change.
- For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited, 52-54 Gracechurch Street, London EC3V 0EH or, during normal business hours on 01268 44 8634.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

	Class D Acc
Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).

Charges taken from the fund over a year

Ongoing charge	1.39%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	-N/A-
-----------------	-------

The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds) you might pay less – you can find out actual entry and exit charges from your financial adviser.

The ongoing charges figure is based expenses for the period ending 31 October 2019. Ongoing charges may vary from year to year. The ongoing charges figure includes any portfolio transaction costs which the Fund pays to its service providers (e.g. to the Fund's custodian) and any entry/exit charges the Fund pays when buying/ selling units in another fund. In general, however, the figure excludes other portfolio transaction costs.

For more information about charges please see Section 7 of the Fund's Prospectus, which is available from the administration office of the ACD at FundRock Partners Limited - Octopus PO Box 10359 Chelmsford CM99 2AW or, during normal business hours on 01268 44 8634. For more details please see the Supplementary Information Document (SID) which is available at www.FundRock.com or on the above number.

Past performance
