The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FP Russell Investments Multi Asset Growth Fund IV, a sub-fund of FP Russell Investments ICVC Class C Accumulation Shares (GBP) (ISIN GB00BYXJKS91)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

The Fund aims to achieve capital appreciation over the long term.

Policy:

- at least 80% of investment is in:
 - shares in companies;
 - fixed income investments (which are investments which could be issued by a company, a government or another entity that pay a fixed level of interest);
 - regulated funds (which are schemes where investors' money is pooled to buy investments) which invest mostly in shares in companies and fixed income investments;
 - regulated funds which gain exposure to alternative asset classes such as commodities or global property;
 - the Fund may invest up to 90% of the scheme property in riskier assets providing potential for more aggressive growth, such as equity securities, indirect exposure to listed real estate, listed infrastructure and commodities;
- we may use derivatives (contracts whose value is linked to the expected future price movements of an underlying asset) for investment purposes and efficient portfolio management which should not lead to an increase in risk to the Fund; the Fund can also invest in other types of shares, bonds (contracts to repay borrowed money with interest at fixed intervals) and other types of investments which are mainly bought or sold on stock markets, investments such as cash and similar cash-like investments,
- Fund may invest in money market instruments (which are a type of security where cash can be deposited for short periods);

- the Fund may invest in the above investments anywhere in the world.
- during certain market conditions where, in the opinion of the Investment Manager it is prudent to do so, the Fund may hold up to 50% of its assets in cash.

Benchmark:

No Benchmark: Because the Fund has a flexible allocation between equity and fixed income investments, there is no index or sector that would be an appropriate comparator. The Fund is risk-rated by a risk-rating service provided by Synaptic Software Limited ("Synaptic Risk Ratings"). Synaptic Risk Ratings associates a fund's returns with a particular level of risk and enables comparison between funds which are managed on a similar basis. Performance can be assessed against the range of asset classes in which the Fund invests, in proportion to its holdings in these asset classes. The investment manager has discretion over the portfolio composition. Portfolio composition is not constrained by a benchmark.

Other information:

- Buying/selling shares: on each working day at 07:00 if you tell us before 17:00 on the working day before, except on UK public holidays.
- For accumulation shares, income will be rolled up into the value of shares.
- For income shares, income from investments is paid once a year.
- Derivatives: used to reduce the risks otherwise associated with making investments in currencies other than the Fund's accounting currency (Sterling).
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean 'risk free'.

The Fund appears as a '5' on the scale. This is because it invests in a mixture of investments. The value of some of these investments may vary more widely than others.

The Funds will be exposed to a credit risk on parties with whom it trades and will also bear the risk of settlement default.

A Fund's investments may be acquired in a wide range of currencies and changes in exchange rates between currencies may cause the value of an investment in a Fund to fluctuate.

If interest rates go up, the value of the capital may fall, and vice versa.

A third party which issues bonds may fail to meet the interest repayments, or repay its debt, leading to losses for the Fund. The risk is greater for investments that have a lower credit-rating.

For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from FundRock Partners Limited – Russell Investments, PO Box 10204, Chelmsford, CM99 2AQ or, during normal business hours on 01268 44 8211.
