Objective:

The Fund aims to achieve capital appreciation (profit on investments held) over the long term (5 years).

Policy:

The Fund will seek to achieve its objective by investing at least 80% of its assets in:

- Collective investment schemes which invest at least 80% of their assets in Global Equity Securities; and/or

Use may also be made of derivatives (investments whose value is linked to another investment, or the performance of a stock exchange or to some other variable factor, such as interest rates) for efficient portfolio management and for investment

purposes. Efficient portfolio management is where the fund is managed in a way to reduce risk or cost and/or generate extra income or growth and for investment purposes.
