

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

FP Pictet Multi Asset Portfolio, a sub-fund of FP Pictet Class T Accumulation Shares (GBP) (ISIN GB00BF0BYT44)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

Seek to provide investors with a positive return in all market conditions exceeding ICE LIBOR GBP 3 month rate in GBP (LIBOR) over any 12 month period plus 4% over LIBOR (net of fees) over a 3 year period. Capital invested is at risk with no guarantee that the investment objective will be met over the term. (LIBOR – London Interbank Offered Rate.)

Policy:

- Fund will invest in collective investment schemes and transferable securities (debt securities and equities), may also invest directly in derivatives (investments whose value is linked to another investment, or the performance of a stock exchange or to some other variable factor, such as interest rates), structured products, warrants, money market instruments, cash and deposits.
- Indirect exposure to commodities, precious metals and property using collective investment schemes will also be sought.
- In normal market conditions, Fund will diversify across asset classes, but not restricted by asset class, geographic or economic sector. Portfolio hedged to ensure Non-Sterling exposure will not exceed 40%. Fund may hold up to 100% in cash if deemed prudent by the Investment Manager.
- Stock lending agreements and repurchase or reverse repurchase transactions may be utilised in order to increase capital, reduce risks or costs and borrowing in line with Regulations.
- All types of derivative financial instruments may be used for investment

purposes, hedging and/ or efficient portfolio management (to reduce costs and/or the overall risk of the Fund).

- The Fund is actively managed.

Target Benchmark:

• A positive return in excess of LIBOR over any 12 month period, plus 4% over LIBOR (net of fees) over a 3 year period. The Investment Manager has discretion over the composition of the Fund's portfolio. The Target Benchmark does not restrict the Investment Manager's decision making.

Other information:

- You can buy and sell shares Monday to Friday except for a bank holiday in England or Wales or any other day declared by the ACD to be a non-Dealing day.
- Fund's base currency is Pounds Sterling (GBP).
- Investor deals received before midday will be processed, deals received after midday will be dealt on the next business day.
- Recommendation: the Fund may not be appropriate for investors who plan to withdraw their money within five years.
- Income from investments in accumulation shares will be included in the value of your shares.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- The Class T Shares above appear as a "4" on the scale. This is because the Fund by its nature invests in a mixture of investments. The value of some of these investments may vary more widely than others.
- The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it. In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:
 - Liquidity Risk - Certain securities could become hard to value, sell at a desired time and price, or cease to trade altogether.
 - Investing in other collective investment schemes - The Fund will bear, along with the other investors, its portion of the expenses of the other collective investment scheme. These fees will be in addition to the management fees and other expenses which the Fund bears directly with its own operations.

• Non-UCITS Retail Schemes (NURS) - The Fund is classed as a NURS and can have wider investment and borrowing powers than a UCITS scheme with higher investment limits in various areas.

• Exchange Traded Funds - The Fund may invest in Exchange Traded Funds which represent a basket of securities that are traded on an exchange and may not necessarily trade at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.

• Overseas bonds and currencies - The Fund may invest in overseas bonds and currencies. These markets may respond to different influences to those that affect the underlying funds and accordingly carry a higher degree of risk.

• Derivatives and volatility - Where the Fund invests in derivatives, forward transactions and options in the pursuit of the Fund's objective, the net asset value of the Fund may at times be volatile (in the absence of compensating investment techniques). However, it is the ACD's intention that the Fund will not have volatility over and above the general market volatility of the markets of its underlying investments and that the use of derivatives and forward transactions in the pursuit of the objective will not cause the risk profile to change.

• For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from FundRock Partners Limited, 52-54 Gracechurch Street, London, EC3V 0EH or, during normal business hours on 0330 123 3625.
