

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Volare Defensive Fund, a sub-fund of Volare UCITS Portfolios

Class Z Accumulation Shares (GBP) (ISIN GB00BHSRS413)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

- The Fund aims to achieve long term capital growth whilst operating within a volatility range* of between 2% and 4.75%.
- *Based on annualised, equal weighted standard deviation of the daily portfolio returns over a rolling 60 month period.
- The Funds primary objective is to control volatility and this could therefore be at the expense of performance. There can be no guarantee that the Fund will achieve its objective of managing volatility.

Policy:

- The Fund will aim to achieve its objective through investment in a variety of asset classes across multiple geographical areas and markets.
- Implementation of the strategy will be predominantly through collective investment schemes gaining indirect exposure to cash, bonds, equities, funds with a multi strategy or multi asset focus and to property through REITs and ETFs.
- The Fund may also invest into other collective investment schemes, bonds, equities, cash or near cash and money market instruments.
- The Fund will be managed in a manner that maintains eligibility for ISAs.
- The Fund may hold derivatives for efficient portfolio management. It is not intended that the use of derivatives in this way will change the risk profile of the Fund. On giving Shareholders 60 days' notice, the Funds will be able to

also use derivatives for investment purposes.

Benchmark:

The Fund uses the Investment Association's (IA) 'Mixed Investment 0-35% Shares' Sector for performance comparison purposes only ('Performance Comparator').

The Performance Comparator was chosen because the IA Mixed Investment 0-35% Shares Sector provides an appropriate comparison of the performance of the Fund in terms of a wider group of available similar funds.

The Performance Comparator is used to compare the Fund's rank or quartile as compared to the performance of other funds in the IA Mixed Investment 0-35% Shares Sector over a variety of time frames.

Other information:

- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.
- If you hold accumulation shares income from investments in the Fund will be rolled up into the value of your shares.
- If you hold income shares, income from investments in the Fund is paid out to you once a year.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Class Z Shares above appear as a '3' on the scale. This is partly because the Fund invests in a mixture of investments, whose values do not fluctuate widely.

• The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

• Counterparty Risk - The Fund could lose money if an entity with which it interacts becomes unwilling or unable to meet its obligations to the Fund.

• Liquidity Risk - Certain securities could become hard to value, sell at a

desired time and price, or cease to trade altogether.

• Interest Rate Risk - Interest rate movements affect the value of bonds. Bonds with a longer maturity period are more sensitive to changes in interest rates.

• Exchange Rate Risk - Fluctuations in exchange rates may cause the value of your investment to rise or fall.

• Investing in other collective investment schemes - The Fund will invest in other regulated collective investment schemes. As an investor of another collective investment scheme, the Fund will bear, along with the other investors, its portion of the expenses of the other collective investment scheme, including management, performance and/or other fees. These fees will be in addition to the management fees and other expenses which a Fund bears directly with its own operations.

• Exchange Traded Funds - The Fund may invest in exchangetraded funds which represent a basket of securities that are traded on an exchange and not necessarily traded at the net asset value of their underlying holdings. As a result, they may trade at a price that is above or below the value of the underlying portfolio.

For full details of the Fund's risks please see Section 5 of the Fund's Prospectus, which is available from the ACD at FundRock Partners Limited – LGT Vestra, PO Box 12391, Chelmsford CM99 2EU or, during normal business hours on 01268 44 5772.
