FP Foresight Sustainable Real Estate Securities Fund, a sub-fund of FP Foresight OEIC

Class A Accumulation Shares (GBP) (ISIN GB00BMFYBB80)

Class A Income Shares (GBP) (ISIN GB00BMFYBC97)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

The Fund aims to provide an income yield of 4% net of fees with a secondary objective to achieve capital growth over a rolling 5 year period.

Policy:

The Fund will invest in global real estate via publicly traded securities (listed) on stock exchanges in developed markets (meaning North America, Western Europe and Asia Pacific), primarily Real Estate Investment Trusts (REITs), Investment Trusts and Closed-Ended Funds.

- The Fund's holdings will be diversified across geographies and sub-sectors of the real estate market however, concentrations may emerge naturally from time to time as part of the ongoing stock selection by the investment manager. Portfolio companies will operate in sub-sectors such as social housing, healthcare, office space, logistics, data centres and communications infrastructure. These sub-sectors may change over time.
- The Fund may also invest in cash for liquidity and cash flow purposes and to pay fund expenses and redemptions.
- The Fund will be managed in a manner that maintains the Fund's eligibility for ISAs.
- The Fund will only invest in the shares of a company if the investment manager in its discretion considers that the company delivers a net social or environmental benefit. Investee companies must comply with the UN Global Compact Principles, have a material impact on one of four predefined UN Sustainable Development Goals and pass a qualitative assessment as to whether sustainability is a core and long term focus.
- The Fund is actively managed.

Benchmark:

Given the specialist mandate of the Fund, the ACD does not consider that there is a representative index or sector that can be used as a benchmark. Investors should assess performance by comparing the annual yield of the Fund against an expected annual yield of 4%.

Other information:

- You can buy and sell shares between 9am and 5pm on most business days when the London Stock Exchange is open for a full range of services.

- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.
- If you hold accumulation shares, income from investments in the Fund will be rolled up into the value of your shares.
- If you hold income shares, income from your investment is paid out to you four times a year.
- Investment in the Fund should be regarded as long-term, which is upwards of 5 years. This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- There can be no guarantee that the objective of the Fund will be achieved.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.
- Charges applicable to the Fund accrue daily, therefore an equivalent rise in the value of shares is required before the original investment can be recovered.

• This indicator above is not a measure of the risk of capital loss, but an estimated measure of the Fund's price movement over time. It is based on historical data, and thus may not be a reliable indication of the future risk profile of the Fund.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Fund appears as a '5' on the scale. This is because it invests in the infrastructure industry and the Fund's simulated and/or realised return has experienced high rises and falls historically.

• The risk indicator is not related to the risk scale number of the Fund.

The indicator does not take into account the following risks of investing in the Fund:

• The Fund relies on other parties to fulfil certain services, investments or transactions. If these parties become insolvent and fail to meet their

obligations, it may expose the Fund to financial loss.

• Real Estate Investment Trusts may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programmes, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors.

• Changes in exchange rates may mean the value of your investment goes up and down.

• Certain securities could become hard to value, sell at a desired time and place, or cease to trade altogether.

• Liquidity risk - some investments may become hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.
